TEN CENTS A WEEK

## LARGE CROWDS AT THE WINTER CHAUTAUQUA

Interesting and Instructive Program at Second Day's Session---Good Program for Today.

The second day of the Florida Winter Chautauqua was even more successful than the first--the weather ideal, the attendance larger, the program more extensive and a more pronounced chautauqua spirit manifest.

Wednesday morning at 9:30 o'clock Dr. D. W. Howell conducted the Biblical hour, and many took advantage of the opportunity to hear the teachings of this eminent divine. Dr. Howell will have charge of this department for several days, and as there is absolutely no charge at the morning service all may avail themselves of this opportunity of learning and becoming better acquainted with the teachings of God's word. Dr. Howell is a deep spiritual thinker, a fluent speaker, and his exposition of the Bible will prove very helpful.

At 10:30 a. m. was given the first of a series of illustrated exhibits concerning "Health" and "Domestic Science." "The Great White Plague" was a subject of much interest, being illustrated by exhibits loaned by the Anti-Tuberculosis Congress. This lecture was given by Dr. Carolyn Giesel, who has visited Gainesville during former Chautauqua. His work has always been appreciated here.

"Diet" and "Character" were the basis of a most interesting and instructive lecture by Mrs. Minnie Emmons. It was a subject that interests everyone who desire to live properly and in a way to get the greatest blessings from this life. "Soups and Fruit Nectars" were also discussed by Mrs. Emmons, and those present profited by her remarks.

The lecture at 8:30 o'clock in the afternoon was a treat. Dr. D. W. Howell, Field Secretary of the Chautauqua Movement, was the speaker, and for about an hour entertained his hearers with a most interesting lecture, which he terms "An Inverted Crown."

In the evening at 8 o'clock Prof. W.

Robert Goss delivered a lecture on the subject of "Ben Hur," one of the most famous stories of the present age. It was beautifully illustrated by stereopticon views and moving pictures, and was much appreciated by the large audience.

The illustrated songs by Miss Bartell formed an important part of the evening's program. She has a sweet voice, and it is evident that she will prove very popular with Gainesville Chautauqua-goers.

The management announces that the price of the daily tickets to the Chautauqua will be 35 cents. These tickets are transferable and are good for all daily attractions, with the exception of the days designated as "Governor Glenn Day" (Feb. 24) and "Mrs. Gen. Pickett Day" (Feb. 26.), upon which occasions the admission will be 75 cents each day to all attractions.

### Today's Program.

The program for today is one of interest throughout, and is as follows:

9:30 a. m.--Biblical Hour, Dr. D. W. Howell.

10:30 a. m.--School of Health and Domestic Science. "Fletcherization and its Results," Dr. Carolyn Giesel. Demonstration: Rice, Macaroni, Cuts and Desserts. Mrs. Emmons.

3:30 p. m.--Lecture Recital: "Some American Writers in Prose and Verse," Wallace Bruce Amsbury, Chicago, Illinois. Solos, Mrs. Louise Morgan Amsbury.

5:00 p. m.--C. L. S. C. Round Table, "A Chautauqua Story," Dr. D. W. Howell.

8:00 p. m.--Grand Concert. Robley Male Quartette. Readings and impersonations by Bayard T. Robley, followed by illustrated songs and wonderful Moving Pictures. Prof. W. Robert Goss and Miss M. J. Bartell.

## What Was Transpiring in Gainesville in 1876

(Gainesville Times, Sept. 14, 21, 28, 1876--E. M. Hampton, Editor.)

A colored man in this place has informed us that several white Republicans have refused to purchase beef of him because he has announced his determination to vote the Democratic ticket. (That must have been old Frank Stewart, as he was the only Democratic negro heard of in this section during the memorable campaign of 1876.)

Mr. Langley, who has been quite sick, we are glad to learn, is improving. (This gentleman is now a resident of Maine, but is at the present time in Gainesville looking after his real estate interests.)

The fall term of the Gainesville Seminary commenced on Monday. Prof. W. C. Miller has been reappointed principal, Mrs. K. M. Denton, Mrs. J. H. Beville and Miss C. H. Matheson assistants.

We are pleased to welcome in our midst Mr. F. M. Oliver, late of Georgia. Mr. Oliver has settled here with a view of merchandising. (Mr. Oliver is still a resident of Gainesville, and is one of the most widely-known men in this section.)

We desire to express our thanks to

the foreman of The Citizen office for the use of his roller this issue. But for his courtesy we would not have been able to go to press this issue. (Col. W. W. Hampton was then local editor of The Times, and it would probably be a revelation to him to call at The Sun office and observe the improved methods for issuing a paper in even so small a city as Gainesville.)

Mr. I. E. Webster and lady, a bride and groom of a few weeks' duration, arrived on Tuesday from the North--another young couple brave enough to unite their fortunes in this season of hard times. May their bright anticipations of a happy and prosperous union be fully realized. (And they have been realized, for they have reared a family of children who are an honor to them, are proud grandparents, and possess their own lovely home in North Gainesville, no more highly esteemed people claiming this city as their home.)

As advertising finds the best market for everything else, why not for your personal services?

## REFORM IN LEASING OF STATE PRISONERS

WOMEN AND INFIRM MEN NOT TO BE HIRED OUT.

State Farm Is Suggested for Such, But Revenue from Leasing Convicts Will Not Be Decreased.

TALLAHASSEE, Feb. 17.--In his inaugural address last month Governor Gilchrist gave strong approval to the suggestion made by Commissioner of Agriculture that those convicts who are women and infirm men should not be leased out to contractors, but should be detained on a farm or at some other employment owned and operated by the State, and expressed the hope that this suggestion would be enacted into law.

This movement is making progress. The schedule of requirements adopted by the Board of Commissioners of State Institutions--which is composed of the Governor and his entire cabinet--with which the contractor for the lease of all State convicts for the four years beginning January 1, 1910, must comply, contains the following provision:

"Anyone presenting a bid for the hire of State prisoners is required to name therein the per capita per annum price he or they agree to pay the State of Florida for all State prisoners subject to all of the above conditions, with the express understanding and agreement that the Board of Commissioners of State Institutions shall, if authorized by law, have the right, at any time they may desire, to withdraw from said lease all women and invalid male prisoners, and from the time of the withdrawal of said women and invalid male prisoners, the lessee shall pay fifteen per cent additional on the per capita amount of said bid, as made under the terms and specifications herein set forth.

"The Commissioner of Agriculture and the Board of Commissioners of State Institutions will increase the per capita price per annum by fifteen per cent on all prisoners not so withdrawn from said lease.

"The Commissioner of Agriculture and Board of Commissioners of State Institutions reserve the right to modify any contract for the hire of State prisoners, to the extent of leasing only those capable of performing reasonable service at manual labor."

The proposal to detain women and infirm male prisoners of a State farm, thus forming a nucleus for a State penitentiary proper, now awaits only the necessary authority of legislative action, which it is believed will be given at the approaching session.

The reasons favoring the proposed change need no argument. Common decency and every other element of humanity demand that women and infirm male prisoners be not subjected to the hardships of the contract convict camps. Manifestly, these classes of prisoners are not physically able to perform the tasks of able-bodied laborers. Yet, under the existing arrangement, the contractors are required to pay the same per capita price for all prisoners, and it is human nature that these contractors will try to get full return in labor for their money from all prisoners whom they lease, be they women, men or invalids.

The proposal to detain the weaker classes of prisoners on a State farm should be as acceptable to prospective lessees, for business reasons, as it is to right-thinking citizens for humanitarian reasons. Lessees would then secure only able-bodied male prisoners, who would be much more valuable to them, and for whose labor they would naturally be willing to pay a larger per capita price than is now paid per capita for the whole body of prisoners, men and women, weak and strong. The revenues of the State would thus be fully protected and a great reform in prison management instituted.

## JONES THREW DOWN MAN WITH DYNAMITE BOMB

Man With Pistol in One Hand and Bomb in Other Demanded \$7,000.

KANSAS CITY, Mo., Feb. 17.--Armed with a revolver in one hand and a dynamite bomb in the other, a man apparently 40 years of age yesterday entered the home of Lawrence M. Jones, president of the Jones Brothers Dry Goods Company of this city, and demanded \$7,000. By a ruse, Mr. Jones overpowered the man, who was arrested.

The bomb thrower gave the name of C. H. Garnett.

Confronting Mr. Jones with a revolver, the man drew from his overcoat a dynamite bomb and explained that unless Mr. Jones gave him \$7,000 he would immediately blow him into atoms. Mrs. Jones entered the library at this point. The intruder ordered her to be seated. The conversation was resumed. Chester J. Jones, secretary of the Jones Company, a son, followed his mother, and he, too,

was ordered to be seated. Mr. Jones then suggested that as he should not have the necessary funds in the house the man accompany him to the bank. This was agreed to. As the pair were passing through the lower hall, Mr. Jones stepped suddenly back and placing his foot in front of his visitor, hurled him to the floor. Mr. Jones and his son then overpowered the man and stripped him of his weapons and called the police. The bomb did not explode when the intruder fell.

Late this afternoon police officers and newspaper men found a house described to them by Garnett. It was a small, vacant frame house in Independence. The closet contained three padlocks and a number of long chains attached to the wall. Garnett had planned to imprison Mr. Jones and keep him chained until Garnett could escape with the money.

## Brick City Badly Shaken By Severe Electric Storm

OCALA, Feb. 17.--A severe electrical storm visited this city at an early hour this morning. The wind, which at times assumed a high velocity, wrought considerable damage on several roofs, fences and other things not securely fastened. The storm caused a breakdown at the electric plant, which is something unusual for this department. About 7 o'clock last night a broken wire at the corner of The Star building caused a small blaze

and some spectacular fireworks, which necessitated turning off the current. Chief Chambers, while trying to extinguish the fire on the pole after the current had been shut off, had a narrow escape. A negro at the station, for some unknown reason, turned the current on for a few minutes, which would have proved fatal to Chief Chambers had he not turned the stream from where the fire was a second before.

## Prohibitionists Have Lost Out in South Carolina

COLUMBIA, S. C., Feb. 17.--After a sensational filibuster lasting several days it appears that prohibition has been killed in this State. The Senate has a majority of four for local option and the House is equally as close. The local option forces in the House are well organized to demand roll calls on hundreds of amendments.

The General Assembly will adjourn Saturday, which means that the prohibition movement will fail without a special session, which is practically impossible.

The Senate yesterday killed the bill providing for an investigation of the county dispensaries by a vote of 15 to 13. This bill is regarded as a prohibitionist measure.

The opponents of the bill contended that there was no need of an investigation, there being a dispensary auditor.

## Man's Leg Was Broken In Bad Runaway Accident

CHAIRES, Feb. 17.--Last night Mr. Elton Patterson was returning from Tallahassee, when within two miles of home the pair of horses he was driving took fright and making a sudden dash, turned the buggy over, catching Mr. Patterson underneath and breaking his leg between the knee and hip, rendering him perfectly helpless. Fortunately he was near

a negro cabin, and succeeded in attracting the negro's attention. The night was dark and a slight rain was falling. The negro called up Mr. S. C. Fleming, who secured a conveyance and got Mr. Patterson home. Dr. Fred Moore of Tallahassee was called and decided that Mr. Patterson must go to Tallahassee, where he can give him the proper attention. He was taken to Tallahassee in the afternoon.

### Off for Hog Island.

Col. B. A. Thrasher and a party of friends, comprising Frank Fernandez, W. T. Richardson and others, left last night for Cedar Key, where they will proceed to Col. Thrasher's ranch on Hog Island, there to hunt, fish and en-

joy the next several days. It is said that all kinds of game abound at this place and it is an easy matter to get all you want.

If you have found anything see if it is advertised in the Want column.

## ACTUAL STARVATION

### J. W. McCollum & Co. Give Facts Regarding Dyspepsia.

Although indigestion and dyspepsia are so prevalent, most people do not thoroughly understand their cause and cure. There is no reason why people should not eat anything they desire—if they will only chew it carefully and thoroughly. Many actually starve themselves into sickness through fear of eating every good-looking, good-smelling and good-tasting food, because it does not agree with them.

Dieting cannot cure dyspepsia. If we refuse every article of food that disagrees with us, before long we have nothing left, and find ourselves chronic dyspeptics.

We can cure dyspepsia. We are so confident of this fact that we guarantee a cure, and promise to supply the medicine free of all cost to everyone who will use it, who is not perfectly satisfied with the results which it produces. We exact no promises, and put no one under any obligation whatever. Surely, nothing could be fairer. We are located right here in Gainesville, and our reputation should be sufficient assurance of the genuineness of our offer.

We want everyone in Gainesville who is troubled with indigestion to come to our store and get a box of Rexall Dyspepsia Tablets. Take them home and give them a reasonable trial, according to directions. They are very pleasant to take; they soothe the irritable stomach, strengthen and invigorate the digestive organs, promote a healthy and natural action, immediately relieve nausea and all stomach irritation, produce perfect and healthy digestion and assimilation, and promote nutrition.

A 25c package of Rexall Dyspepsia Tablets furnishes 15 days' treatment. In ordinary cases, this is sufficient to produce a cure. In more chronic cases, a longer treatment of course is necessary, and depends upon the severity of the trouble. For such cases, we have two large sizes which sell for 45c. and 89c. J. W. McCollum & Co., corner East Main and Union streets.

**Electric Theatre.**

With the magnificent machine, one of Edison's latest patterns, the moving pictures at the Electric Theatre are so steady that not the slightest injury to the eye may be feared. This is one objection some people have to attending these moving picture exhibitions, but in this instance the danger is averted by the splendid service rendered by the machine and the way it is operated.

Tonight there will be an excellent list of new and splendid pictures shown and the prospects are for a crowded house.

**Card of Thanks.**

Editor Sun: Please allow me space in your valuable paper to thank my many friends for acts of kindness shown us during the severe illness of my little nine-year-old daughter. She suffered excruciating pain for fourteen days and nights, and was skillfully treated by Dr. F. McKee, who was ably assisted by Dr. Paxton, a visiting physician from the North.

Scores of prayers ascended to God for her recovery, and loving hands ministered to our necessities by day and by night.

I shall never cease to love those who have done so much for us.

Prayers have been answered, medical treatment and loving care has been sanctified to her healing, and now she is rapidly recovering.

Again thanking all who have assisted us in any way I am,

Their loving brother in Christ,

## REAL ESTATE SALES BECOMING ACTIVE

### FOUR TRANSFERS RECORDED BY CLERK ON WEDNESDAY.

### City and County Property Alike is Changing Hands and Realty People Are Satisfied.

Real estate has again taken an active start and many transfers are now being recorded daily in the court house, both of city and country property, and while the records only show where the transfer has really been made, it will give the citizens an idea of what is doing along this line.

There are numerous purchases made each week, but the larger part of them are made on the easy payment plan, and therefore no record is made of the transaction until the final settlements have been made in the case.

Following is a list of real estate transfers in the clerk's office on last Wednesday:

Heirs of S. W. Teague to Dr. E. B. Howell; Wm. Yeats and wife to J. V. Talley; F. P. Henderson and wife to J. M. Price; F. P. Henderson and wife to Nathan Price.

The above shows the city transfers, as well as two country changes, and this was not considered an extra good day, for there have been a large number on several days recently.

**Marriage at Alachua.**

A marriage license was issued Wednesday for the union of Mr. R. L. Boule of Kanapaha to Miss Maggie Kirkland of Alachua, the happy event occurring in that place on Wednesday evening.

Mr. Boule is well-known in Gainesville and was for many years a resident of this city. He is now employed as book-keeper for T. J. Swearingen. The bride is one of the charming young ladies of the Alachua section and has a large circle of friends throughout the county.

The Sun joins their many friends in wishing them many blessings during their wedded life.

**East Main Street.**

East Main street, from Union south, is being repaired by the unloading of a quantity of clay and sand, which in wet weather will prove as much annoyance to the traveling public as the partial sand bed that it formerly represented. Many people argue that clay does very well in the suburbs, where nothing better can be secured, but to place this material on rock streets is spending time and money that could be better used.

**VALENTINE PARTY.**

Miss McCreary Entertains in Honor of Miss Eva Ward.

Tuesday evening, from 8 to 11, Miss Irene McCreary entertained most delightfully in honor of her visiting guest, Miss Eva Ward of Fort Smith, Ark. As the guests arrived they were received at the front door by Mrs. McCreary, and escorted up stairs by Catherine Haile and Sallie Merchant, Miss McCreary and her guest receiving in the parlor.

The chief amusement was a bon bon march, followed by a mock wedding. To the strains of Mendelssohn's Wedding March, played by Miss Ida Burkheim, the little flower girls, Misses Catherine Haile and Sallie Merchant, entered. Then came the maid of honor, Miss Louise Walker, attired in pale blue messaline, carrying a shower bouquet of La France roses; then came the bride's maids, Misses Whetstone, VanDeventer, Vidal and Cannon, who also carried shower bouquets. The groomsmen were Messrs. Piles, Shands, Chesnut and Haughton, followed by the ring bearer, little Master Addison Pound.

Leaning on the arm of the father, Mr. Sandy Graham, came the bride, Miss Eva Ward, who looked charming in a peach-colored messaline, carrying a shower bouquet of lilies of the valley and maiden hair fern. The bridal veil was caught up with mock orange blossoms.

Under a huge wedding bell, the bride was met by the groom, Mr. G. Henry Davis, and his best man, Mr. Mal Haughton.

The most impressive but amusing fake ceremony was performed by the "Rev." Bill Anderson.

During the ceremony "No Wedding Bells for Me" was beautifully rendered.

Among the out-of-town guests was the bride's mother, Miss Marion Futch. The bridal party was escorted to the dining-room, where a delightful salad course was served. Rice and best wishes were in abundance. The bridal bouquet was caught by Miss Cannon.

Delightful fruit punch was served by Miss Margaret Merchant.

The decorations of the room consisted of red and white hearts and cupids.

Immediately after the mock ceremony a telegram was read from Elmer McCreary, who was absent in Tampa, stating that he was having a good time, hoping the party was enjoying themselves, extending congratulations to the bridal couple, and hoping to be present at the celebration of their golden wedding.

## CAUGHT ON CHARGE OF COUNTERFEITING

DEPUTY WYNNE BRINGS IN TWO  
MORE OF GANG.

Men Are Very Reticent and Refuse to  
Talk Concerning Their Arrest  
and the Charge.

Deputy Sheriff Wynne arrived in  
the city yesterday with J. J. and Si-  
mon Knighton, two brothers, charged  
with counterfeiting, the operations be-  
ing made near Newberry.

The men are said to be members  
of the crowd with whom Hodge was  
associated, and had been at work in  
the manufacture of spurious money  
for some time when the first arrest  
was made. Hodge, the first party ar-  
rested, is now out on bond, but the  
cases of all three will come up at the  
next session of the United States  
court here.

Deputy Wynne is confident that he  
will secure more of the crowd who  
are supposed to have operated to-  
gether, and is now quietly at work on  
evidence which will warrant their ar-  
rest.

Plenty of the money has been found  
about them, but the officer has so far  
failed to find their molds, which are  
believed to be buried somewhere near  
Newberry or hid away in an out-of-the-  
way place.

The men were seen at the jail but  
refused to talk concerning their ar-  
rest or anything connected with the  
case, as they wanted to wait until they  
could confer with some attorney.

### ARCHER NEWS.

St. Valentine Party.

ARCHER, Feb. 17.—Mrs. Fred Cub-  
berly and children of Cedar Key are  
visiting Mrs. James Hancock.

Mrs. Horace Ross and little son are  
spending this week with Mrs. Robert  
Heagy.

Miss Louise DePass spent several  
days this week with the Powell chil-  
dren.

Miss Essie Smith, who has been  
spending several weeks with her pa-  
rents in Micanopy, has returned home.

Miss Lella Bauknight left today for

Joel Tucker, of Jacksonville.

Robert Heagy has accepted a posi-  
tion with the Dutton Phosphate Com-  
pany at Dutton.

Dr. W. C. Andruss of Williston is  
visiting Rev. and Mrs. Newman.

Mrs. W. H. Powell and son, William,  
spent Tuesday with friends in Gaines-  
ville.

Dr. W. C. Andruss entertained a  
party of friends at dinner at the Mag-  
nolia on Friday, the occasion being  
his seventy-fifth birthday. Among the  
party were Mr. and Mrs. Thomas Pear-  
son, Mr. and Mrs. W. A. Wood, Rev.  
and Mrs. H. H. Newman, Mrs. Marion  
Smith and Miss Elsie Smith.

Andrew Smith of Micanopy, who  
has been clerking for Fleming & Sons,  
has resigned his position and accepted  
one as clerk for Mr. Crawford at Mica-  
nopy.

Mr. Duling, wife and son, of Indiana,  
who have been here for some time,  
left yesterday for a visit on the East  
Coast before returning to their home.

The young ladies of Archer gave a  
Valentine party at the hall Friday  
evening, twenty couples being present.  
The hall was beautifully decorated  
with ferns, evergreens, hearts and  
other things suggestive of the evening,  
the color scheme being green and  
pink. Progressive peanuts and other  
games were enjoyed until the most  
amusing feature of the evening was  
announced, which was the shooting of  
the hearts. Each young lady had pre-  
pared a heart; all were strung on  
ribbon in a row, and each young man  
took his turn shooting at one with a  
small bow and arrow, in that way  
selecting his partner for supper. After  
the games were finished all were  
invited out to a table beautifully de-  
corated with pink candles, hearts and  
flowers, where the daintiest of re-  
freshments were served, consisting of  
fruit salad on lettuce leaves, bread  
and butter sandwiches, ice cream and  
cakes, the color scheme being carried  
out in the pink ice cream served in  
pink heart-shaped cups. At a late  
hour the guests left, wishing dear old  
St. Valentine's day would come often-  
er than once a year.

Mr. and Mrs. James Skinner are  
visiting in St. Petersburg this week.

The warrant was sworn out by A.  
R. Harper, who proved that the prop-  
erty was his, and Glover's evidence  
was insufficient to convince the judge  
that he had not stolen it.

For this last offence he was given  
ninety days in the "gang" or a fine  
of fifty dollars. The total amount on  
this same gun will give him six  
months or a fine of \$150 and costs.

### Baby Hands

Will get into mischief—often it  
means a burn or cut or scald. Apply  
Ballard's Snow Liniment just as soon  
as the accident happens, and the pain  
will be relieved, while the wound will  
heal quickly and nicely. A sure cure  
for sprains, rheumatism and all pains.  
Price 25c, 50c and \$1.00 a bottle. Sold  
by W. M. Johnson.

### The Fleur-de-lis.

The origin and therefore the full  
heraldic meaning of the fleur-de-lis is  
disputed. By some the emblem is sup-  
posed to represent a lily, by others the  
iron head of some weapon, presumably  
a lance. From the claims put forth by  
English sovereigns to certain prin-  
cipalities in France, gained by inher-  
itance or marriage, the French royal  
coat appeared as a quartering in the  
English royal arms, but it was abol-  
ished by George IV.

Itching, bleeding, protruding or  
blind piles yield to Doan's Ointment.  
Chronic cases soon relieved, finally  
cured. Druggists all sell it.

### The Doctor's First Question

"How are your bowels?" This is generally the first question the  
doctor asks. He knows what a sluggish liver means. He knows  
that headaches, bilious attacks, indigestion, impure blood, are  
often promptly relieved by a good liver pill. Ask him if he  
approves of Ayer's Pills. Then follow his advice.

## GUN CLUB PERFECTS ITS ORGANIZATION

COMMITTEES AND REMAINING  
OFFICERS SELECTED BY CLUB.

Membership Has Reached Total Num-  
ber of Forty-Two, With Many  
More to Join Later.

Following the call of President Al-  
derman, the members comprising the  
Gainesville Gun Club met at the  
Brown House on Wednesday evening  
for the purpose of perfecting a perma-  
nent organization and transacting  
such other business as would come be-  
fore the body.

J. Maxey Dell was selected as vice-  
president of the club and W. B. Hig-  
don secretary-treasurer.

W. M. Johnson, C. W. Sprouell and  
R. E. Davis were named as a com-  
mittee to look after the matter of se-  
curing a proper and suitable location,  
and make arrangements necessary, to  
be reported to the next meeting of  
the club.

The committee on finance was se-  
lected with G. L. Thompson and J. B.  
Brooks as members, it being their  
duty to look after the financial inter-  
ests of the club in contests and other  
matters.

J. B. Brooks, J. A. Ettel and J. H.  
Alderman were selected as a com-  
mittee to look out for a suitable building  
to hold their regular meetings, which  
will be held regularly during the sum-  
mer months, and to have a place of  
headquarters where club members can  
lounge about.

Upon motion it was decided to pur-  
chase another and more modern trap,  
and the secretary was instructed to  
order one at once.

J. H. Hightower of Americus, Ga.,  
was present at the meeting and gave  
an interesting talk to the members  
concerning the good of the organiza-  
tion.

### A Kind Hearted Waiter.

A surprising experience was that of  
a lady who received a bit of advice on  
table etiquette. She is sufficiently free  
from vanity to tell the story herself.  
She says:

I know that I am not a person of  
impressive appearance. I am inclined  
to be short and stout and to dress  
plainly. Still, I had hoped that I had  
an air of acquaintance with polite so-  
ciety. But now I shall be more mod-  
est than ever in my idea of the impres-  
sion I make upon strangers.

At my first meal at the hotel where  
I passed last summer I was pleased  
with the face of my waiter. It was  
radiant with kindness and good na-  
ture. I began my dinner with soup  
and fish. As the waiter set them in  
front of me he glanced at the persons  
of fashionable appearance who were  
my neighbors at table. His kind heart  
was suddenly struck with the fear that  
I might make an unfortunate impres-  
sion on them. He bent down and  
whispered in my ear:  
"Eat your soup first."

### For COLDS and GRIP.

Hicks' CAPUDINE is the best reme-  
dy—relieves the aching and feverish-  
ness—cures the cold and restores  
normal conditions. It's liquid—effects  
immediately. 10c, 25c and 50c at drug  
stores.

### The Earth's Changes.

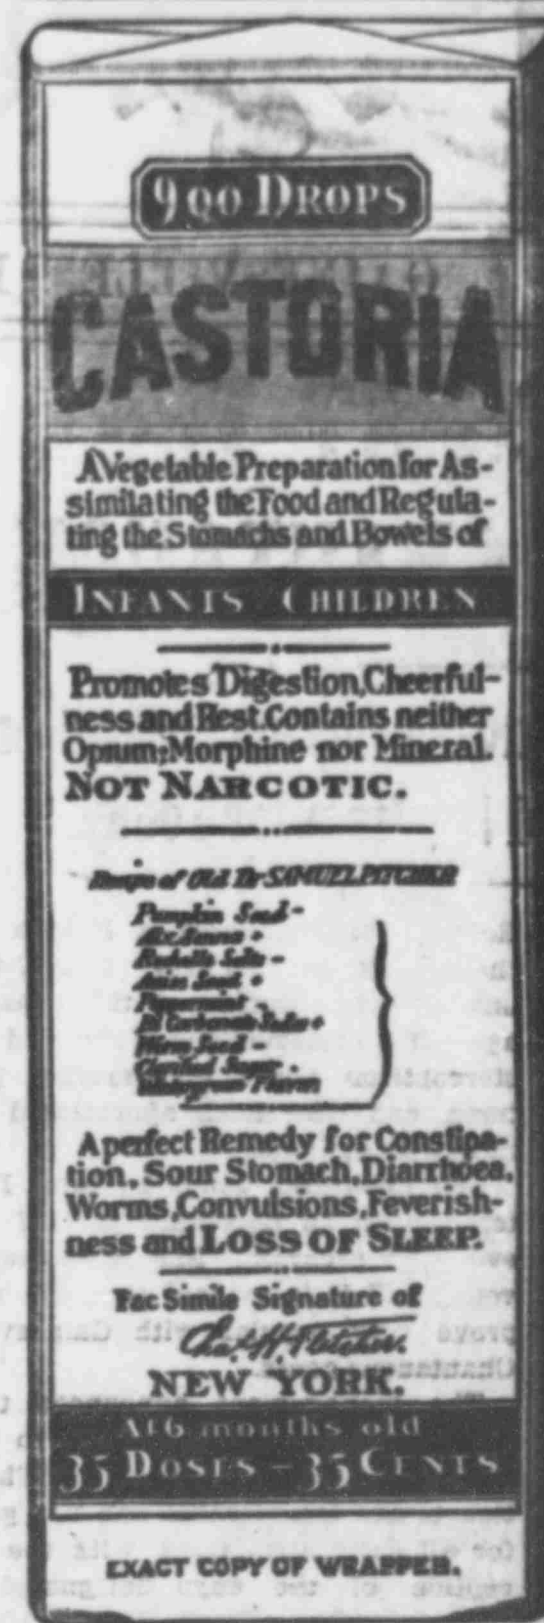

The surface of the earth is under-  
going steady transformation, largely  
through the agency of man, but per-  
haps nowhere is the plant and animal  
life of the region being more rapidly  
superseded than in New Zealand. The  
native Polynesian race, crowded by  
Europeans, is becoming extinct. Many  
of the imported animals run wild and  
multiply rapidly at the expense of the  
native species, even the streams being  
filled with European and American  
trout, which grow to great size.

## DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Paw Paw, Mich.—"I suffered terribly from female ills, including inflammation and congestion, for several years. My doctor said there was no hope for me but an operation. I began taking Lydia E. Pinkham's Vegetable Compound, and I can now say I am a well woman."

Another Operation Avoided.  
Chicago, Ill.—"I want women to know what that wonderful medicine, Lydia E. Pinkham's Vegetable Compound, has done for me. Two of the best doctors in Chicago said I would die if I did not have an operation, and I never thought of seeing a well day again. I had a small tumor and female troubles so that I suffered day and night. A friend recommended Lydia E. Pinkham's Vegetable Compound, and it made me a well woman."

ALVENA SPERLING, 11 Langdon St., Chicago, Ill.  
Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to many suffering women.

### A CASE OF CONSCIENCE.

The Powerful Motive That Moved the Commercial Traveler.

"No, I'm not whistling and singing because business is good," replied the hardware drummer. "What ails me is because I have a clear conscience for the first time in three years."

"Have you confessed to murder?" was asked.  
"Gentlemen, don't try to be funny. This is a sacred thing. I was in Boston three years ago, and I picked up a package on the street. On opening it I found seventy-five \$1,000 bills. The name of the loser was there, but I took that money and got out of town by the first train. My conscience told me that I was as bad as a thief, but I tried to stifle it."

"A drummer with a conscience?" sneered three of the listeners in chorus.

"I went to Chicago with the money," continued the drummer, "and invested it in real estate. I knew it was wrong, but I did it. Six months ago I found myself worth \$200,000. Conscience would not down. It got so bad that I couldn't look even a confidence man in the face. At length I started for Boston and hunted up the loser of the wealth. I found him in his office and told my story. When it was finished I laid my all before him and asked his forgiveness."

"And what did he do?"

"I will tell you what he did, and I shall never forget it. He looked at me and saw how I was suffering, and he took me by the hand and said in a fatherly way:

"My friend, suffer no more. I was going to a poker game when I lost that money, and it would have gone anyhow."

"But what in thunder are you doing on the road if you are worth \$200,000?" shouted a voice.

"Conscience again, gentlemen—conscience. It won't let me retire and leave you fellows to do all the lying!"

### A Bird's-eye View.

The following incident occurred during a terrific thunderstorm at the home of a contractor who lives in the vicinity of Tampa, Fla. The contractor and his family were sitting on the veranda watching the storm when a bolt of lightning struck a tree not fifteen feet from where they were sitting.

The shock was terrific, but no one was injured, although they were all badly frightened. The young son, with great excitement, was telling that he jumped two feet high.

"How do you know you jumped so high?" said his father.

"Why," said Johnnie, "I looked down while I was up."—Youth's Companion.

### Wagner's Swan.

What interests me about Wagner, says a writer in London Opinion, is his affection for live beasts and animals. In "Siegfried" we have a dragon, and in "Lohengrin," as you are all aware, there is a very beautiful swan. When the late Sir Augustus Harris produced this latter opera something went wrong with the bird. Just before the rise of the curtain, therefore, the audience was considerably surprised and startled to hear the indignant voice of one of the stage hands resounding from the realms behind inquiring with characteristic vigor, "What's the matter with that infernal duck?"

## SICK HEADACHE

Sour Stomach, Heartburn, Canker Sore Mouth Cured by Mi-o-na.

Sick headaches are caused by indigestion and a general disturbed condition of the stomach.

Cure the indigestion, and the headache, nausea, heartburn, sour stomach, and that "all in" feeling will vanish.

Mi-o-na tablets will cure indigestion or any other stomach trouble. They will relieve almost instantly. J. W. McCollum & Co. have so much faith in them that they will give your money back if they don't.

Mi-o-na cures by making the stomach strong enough to produce enough gastric juices to digest all the food you want to eat. It promptly puts new life and energy into the overworked and played-out walls of the stomach.

Use Mi-o-na for a week, and you can eat what you want any time you want it, and take pleasure in doing it.

Your blood will be richer, redder, purer after taking Mi-o-na, and it only costs 50 cents a large box.

"I was speedily cured of stomach complaint by Mi-o-na. Anything I can say in favor of Mi-o-na is not too strong."—William Hess, Benton Harbor, Mich.

## S.S.S. CURES CHRONIC ULCERS

Any chronic ulcer shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, caused and kept inflamed and irritated by a continual discharge into it, of unhealthful matter from the circulation. No treatment can have any curative effect except a medicine which will renovate the blood and entirely remove the cause. Salves, washes, lotions, etc., are sometimes helpful in reducing inflammation, cleansing the ulcer, or perhaps lessening the discharge, but such applications do not reach the blood where the disease germs are located and can never effect a cure. S. S. S. goes down into the circulation, drives out all impurities and morbid matter, and by nourishing the flesh with rich pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but by beginning at the bottom, and rebuilding broken-down tissue, and supplying healthful, healing qualities to the blood, causes the place to fill in with new, firm flesh, while it steadily but surely effects a permanent cure. The ulcer can not exist when the blood is pure, and S. S. S. will thoroughly purify the blood. Book on Sores and Ulcers and any medical advice free to all who write.

## TELEPHONE TALKS

### The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

Shortly after Taft left it a cyclone  
blew the South away.

Half a billion for the construction  
of the Panama canal? They must be  
digging Culebra cut with gold.

It was to be expected. Tennessee  
druggists are preparing to establish  
an endless chain of drug stores through  
the State.

It may become necessary to put a  
couple of those Pacific States in the  
refrigerator and give them a chance  
to cool off.

Shakespeare, Sappho, and Swin-  
burne must be revised. A New York  
court has decided that love is no proof  
of madness.

The epidemic of near-poetry that  
has broken out since Mr. Taft invaded  
this is enough in itself to break the  
solid South.

Probably the reason Texas voted  
against prohibition was due to the  
prevalence of rattlesnakes and tar-  
antulas in the State.

Married women's kisses are quoted  
at \$10 a piece in the Chicago market.  
That is what a boarder had to pay  
for kissing his landlady.

If Secretary Garfield really desires  
to retire to private life he will have to  
odge that governorship boom when  
he gets back to his native State.

Chicago will spend \$9,000,000 the  
coming year in the building of addi-  
tional school houses. New York's  
school children are still on half time.

Tennessee will not be represented  
in Taft's cabinet, in all probability,"  
says The Memphis Commercial-Ap-  
peal. Which does not Luke Wright to  
our contemporary at all.

The Beaumont (Tex.) Enterprise re-  
cently carried an editorial headed  
"The Lowly Hen." With eggs at 40  
cents a dozen it looks to us as if it  
were about time to find some other  
title for that fowl than lowly.

"Atlanta cannot abide blowhards,"  
says The Constitution of that interest-  
ing city. A "blowhard" in Atlanta's  
philosophy, be it known, is one who  
makes a point of blowing about Ma-  
con, Savannah, Augusta and Chat-  
tanooga.

The Tampa Tribune of last Sunday  
was a double number, combining the  
Manatee County and State editions  
into one mammoth edition. Truly,  
there is nothing that Editor Stovall  
and his efficient staff cannot accom-  
plish in the newspaper line.

George Christie, son of King Milan  
of Serbia who was assassinated a few  
years ago, is going to be an actor in a  
vaudeville theatre. Why doesn't  
some wealthy American girl marry  
him for his title and prospects? True,  
someone else is at present in the  
throne of Serbia, but the whirligig of  
time brings rapid changes in that  
country and he may yet ascend the  
throne. Our foreign title and do-  
mestic trouble-hunting heiresses ought  
not to let such an opportunity go un-  
heeded. Probably George, like  
Barkin "is willing."

CURRENT COMMENT.

The Richmond News-Leader (Dem.)  
says: "Mr. Bryan evidently intends  
to attempt his former feat of keeping  
himself thrust so prominently before  
the public as to crowd out every other  
possible Democratic aspirant for the  
Presidency. This scheme can be  
balked promptly in one way. That  
is by an outspoken and decisive de-  
claration from Southern leaders of  
thought and action that the South will  
never vote for Mr. Bryan again in any  
circumstances either for nomination  
or election."

The Philadelphia Record says: "The  
authorities in Washington are said to  
be busied with the suggestion to add  
another dollar to the tax on beer in  
view of the increasing treasury de-  
ficit. What with this increased tax  
and the prohibitory laws in some of  
the States the public revenue from  
beer threatens to become exceedingly  
small. But it is a comparatively  
easy thing to secretly distill fiery con-  
traband whiskey in a coffee pot and  
hide it from the most vigilant Govern-  
ment detectives."

The Mobile Register says: "The  
Standard Oil Company's offer to take  
the State of Missouri into partnership  
has not created more stir than the  
'understanding' between the Harves-  
ter trust and the State of Kansas. The  
Kansas agreement has been perfected  
and the trust has thereby obtained  
immunity from prosecution. What the  
benefit to the State will be remains to  
be seen. In Missouri the Standard  
Oil offer is under advisement, and  
there is some prospect that the mo-  
nopoly will be legitimized, thus turn-  
ing the success of the State in the  
courts into a Pyrrhic victory."

The Washington Star says: "In at-  
tacking the Senate's procedure Mr.  
LaFollette has shown himself to be  
a man of nerve. The subject has now  
and then invited the attention of oth-  
ers, but none has succeeded in mak-  
ing material headway. So conserva-  
tive a body as the Senate is hard to  
move, and moves slowly when started.  
It has been going its present gait a  
long time—a leisurely gait, resem-  
bling on occasions a jog. If the Wis-  
consin Senator can increase the speed,  
by rearranging the leaders and wheel-  
ers, he will demonstrate a new claim  
to attention himself, and call greater  
attention to the Senate."

The Philadelphia Record (Dem.)  
says: "There may be a rather fine-  
spun legal argument that Mr. Knox  
would not be eligible to a cabinet of-  
fice even after the salary of the office  
had been restored to its old figure.  
But the objection to his eligibility is  
narrow and technical, and if there be  
a technical removal of the difficulty  
it should suffice. If there were any-  
thing more than a technical objection  
to Mr. Knox's taking the office Con-  
gress could refuse to reduce the sal-  
ary. Therefore it is entirely in the  
power of Congress to avert the scan-  
dal which the constitutional restric-  
tion was designed to prevent."

Pernicious as is the concentration of  
great wealth in the hands of two or  
three people, it would be still more  
of a menace to the nation but for the  
fact that it does not long continue in  
the same hands. We have no official  
hereditary class buttressed by laws of  
entail, and as a consequence while  
families may try to retain wealth  
from one generation to another, it  
does not succeed. The money of the  
Vanderbilts and Astors is surely, if  
slowly, disintegrating, and the same  
will be true in a generation or so,  
and perhaps less, with that of the Har-  
rimans and Rockefellers. Still this  
does not obviate the need of laws pre-  
venting the accumulation of riches by  
dishonest or injurious methods.

Beware of Ointments for Catarrh  
That Contain Mercury

as mercury will surely destroy the  
sense of smell and completely derange  
the whole system when entering it  
through the mucous surfaces. Such  
articles should never be used except  
on prescriptions from reputable physi-  
cians, as the damage they will do is  
ten fold to the good you can possibly  
derive from them. Hall's Catarrh  
Cure, manufactured by F. J. Cheney  
& Co., Toledo, O., contains no mer-  
cury, and is taken internally, acting  
directly upon the blood and mucous  
surfaces of the system. In buying  
Hall's Catarrh Cure be sure you get

When the balance of nature is dis-  
turbed in any one direction injurious  
results are certain to follow. We have  
striking proof of that in the denuding  
of our forests. Not only does it mean  
a shortage of lumber with all that im-  
plies in those industries directly de-  
pendent upon lumber but it also means  
disastrous floods followed by drought.  
And the evil is aggravated by the im-  
mense amount of good earth washed  
away and lost by the action of the  
floods. Whenever nature is abused it  
is bound to avenge itself in some way.  
The need of restoring the balance of  
nature is now realized by State and  
national authorities, and none too  
soon.

The Emperor William has secluded  
himself a good deal since the criti-  
cisms so unsparingly made upon him  
for his indiscreet utterances on inter-  
national affairs. It is now stated that  
he intends to strike back at the Ger-  
man papers that have criticised him.  
He had better leave well enough alone.  
The hearty reception accorded him on  
his birthday showed that his popular-  
ity was returning, and criticisms  
have ceased. It is always well not to  
disturb sleeping dogs, but the press  
will certainly be awakened again if  
he throws sticks at it.

The fist fight with the accompani-  
ment of bites and scratches which re-  
cently took place between the Czechs  
and Germans in the Austrian parlia-  
ment gives one a good idea of the dis-  
cordant elements that make up the  
composite Austrian Empire, and it  
does not bode well for the future when  
the Emperor Francis Joseph ends his  
earthly career. What with Czechs,  
Germans, Slavs, Magyars and other  
races all jealous and suspicious of  
each other, the members of the em-  
pire can scarcely be considered a hap-  
py family.

HEALTHY PLANTS

Require the Most Careful Attention as  
Well as Good Soil.

Did you ever see a rosebush which—  
despite the most beneficent environment  
of soil-of sunshine—and of atmosphere,  
—seemed never to achieve a healthy  
growth.

A ton of manure will not help a plant  
that has a canker eating out its heart.

You must destroy the cause before you  
can remove the effect.

You cannot cure Dandruff and Bald-  
ness by rubbing on hair lotions, and  
rubbing in vaseline, etc.

You must look to the cause of the  
trouble—it's a germ at the roots of  
your hair which causes it to fall out.

Newbro's Herpicide destroys the germ,  
and healthy hair is the sure result.

# ANTARCTIC STORM

## The Perils of a South Polar Winter's Night.

### FURY OF THE GALE.

Journal of a Party of Explorers in Journey Over the Broken Pack of the Solid Wall of Wind That Enveloped a Friendly Iceberg.

The arctic explorer has always had a sense of danger enough, but the discovery has far more terrible conditions to meet. Luckily he is equipped with all the equipment that arctic exploration has ever known. Yet they are most often as the story of those who have lived through the south polar night can testify. One of the explorers of Bernacchi on the cruise of the Southern Cross some years ago, when an antarctic gale

struck a comrade, Ellifsen, started on a short sledge journey to carry him from one camp to another. It was in September, and the broken ice over which they must travel was a foot and a half thick and broke in pieces afresh or piled up in deadly mounds at the mercy of the wind. The two men had eighteen dogs. They had started before the wind threatened. Halfway to the destination there was an ice-berg embedded in the pack ice, and they reached this before the storm should break.

In the hours they toiled over the ice the wind gradually rising. The storm was in full fury just as they reached the iceberg, under whose lee they pitched a tiny silk tent, into which they moved after having fed their dogs as best they could. Hour after hour the wind raged, and the thermometer went to 9 degrees below zero. The snow drifted over and into the tent. It was impossible.

The explorers, who had met typhoons, hurricanes, and cyclones in the tropics, found by the aneroid as well as by their own sensations that this storm was all. Worst of all, it seemed as if the ice was beginning to crack. They knew well that the berg which protected them from the full force of the storm was the most dangerous place possible in other words, the ice was sure to separate and immediately round the berg, driving tent, men and dogs into the sea. The cracking of ice was now heard above the roar of the wind. They dared not stay in their

life to the east, Bernacchi remembered, was a cave in the body of the iceberg. Once in that, they would at least be precipitated into the sea when it they were carried away, and all. It was so dark that the end of the berg could not be seen when the hands touched it. The explorers groped as best they could along the slippery walls, both on the ice and their bodies pressed against it. Halfway around they left the lee side and met the berg. It came like a solid thing, bearing them back and down. Not one could move against it, and after exposure meant death. They lay back, blinded, deafened and paralyzed with cold, to shelter. When they commenced a toilsome hunt for a foothold on the lee side some- toward morning they found a projection, upon which they scrambled and lay down perfectly exhausted in the snowdrifts, which were each moment. To this they owed their lives, for the snow soon covered them and kept in the warmth of their

never waking, so they roused each other alternately. At last day broke, and the gale abated. Crawling over the snow, their garments frozen stiff as boards, their beards solid lumps of ice, they managed to reach their tent. The ice had not broken, though it was cracked here and there. They took food, slept, fed their dogs, who were deep in the drifts, but alive, and then courageously went ahead, "not caring to be beaten," as Bernacchi expressed it. It was 8 o'clock at night before they reached camp, but the next day they were exploring and taking photographs and observations just as usual. Man may seem puny against nature, but he conquers her from the arctic to the antarctic by his unconquerable soul.—William Rittenhouse in Forward.

## For City Marshal.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,  
BEN T. ARNOW.

I take this method of informing the public that I am a candidate for City Marshal at the election to be held on April 13, 1909. I respectfully solicit the support of all voters, irrespective of party affiliation, and promise to faithfully and impartially discharge the duties of the office should I be elected. Respectfully,  
CHAS. C. WARREN.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.  
CHAS. M. DELL.

## A Clever Barber.

"By heck, Cynthia," drawled old Farmer Hardapple after his visit to Chicago, "them thar city barbers are mind readers."

"That so, Hiram?" said his wife.  
"Why, I should say so. The one I met knew that you cut me hair last, and, by gum, he never saw you in his life."—Chicago News.

## Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system.

**THE ONE REMEDY** which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

**THE ONE REMEDY** so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

## ABOUT ADVERTISING—NO. 1

# The Perambulating Showcase

By Herbert Kaufman.

The newspaper is a huge shop window, carried about the city and delivered daily into hundreds of thousands of homes, to be examined at the leisure of the reader. This shop window is unlike the actual plate glass showcase only in one respect—it makes display of descriptions instead of articles.

You have often been impressed by the difference between the decorations of two window-trimmers, each of whom employed the same materials for his work. The one drew your attention and held it by the grace and cleverness and art manifested in his display. The other realized so little of the possibilities in the materials placed at his disposal that unless some one called your attention to his bungling you would have gone on unconscious of its existence.

An advertiser must know that he gets his results in accordance with the skill exercised in preparing his verbal displays. He must make people stop and pause. His copy has to stand out.

He must not only make a show of things that are attractive to the eye but are attractive to the people's needs as well.

The window-trimmer must not make the mistake of thinking that the showiest stocks are the most salable. The advertiser must not make the mistake of thinking that the showiest words are the most clinching.

Windows are too few in number to be used with indiscretion. The good merchant puts those goods back of his plate glass which nine people out of ten will want after they have seen them.

The good advertiser tells about goods which nine readers out of ten will buy if they can be convinced.

Newspaper space itself is only the window, just as the showcase is but a frame for merchandise pictures. A window on a crowded street in the best neighborhood, where prosperous persons pass continually, is more desirable than one in a cheap, sparsely settled neighborhood. An advertisement in a newspaper with the most readers and the most prosperous ones possesses a great advantage over the same copy in a medium circulating among persons who possess less means. It would be foolish for a shop to build its windows in the alleyway—and just as much so to put its advertising into newspapers which are distributed among "alley-dwellers."

# SALE OF LOTS WAS A GRAND SUCCESS

## ENTIRE THIRTY LOTS SOLD IN ABOUT AN HOUR.

Southern Realty and Auction Company  
 Know How to Sell Real Estate,  
 And They Do It.

The auction sale of the Southern Realty and Auction Company advertised for Wednesday evening was largely attended, and bidding proved very spirited by both ladies and gentlemen who were present to secure some of the rare bargains that were knocked down.  
 Owing to sickness of one of the twins, the two Hoppers failed to appear, but the one here did the job in an excellent manner, and while the lots all brought excellent prices they sold far below what real estate is valued at in this particular section.  
 The first corner lot on Alachua avenue was knocked off at \$225, and one lot was bid in for \$65, but only one of the entire thirty was sold for this amount, the average being a little over \$100 each.  
 Numerous presents were distributed free by the managers, and they were engaged just a little over one hour in selling the thirty lots, including the time taken up in awarding the presents and traveling from one to another lot.

**Only Girls to Remind Him.**  
 C. I. Baird of Asheville, N. C., is among the arrivals in the city. He will doubtless be remembered by a great many people, as he was here just 22 years ago and was for a long while a school mate of Col. Evans Haile. He has been about the city and declares that the only thing he finds to resemble the Gainesville of old is the large army of pretty girls, and but for this fact he would not believe he was in Gainesville. A good many citizens were glad of the opportunity to shake his hand. He will be here for the next several days, and proposes to see the city thoroughly before his departure.

**Gave Delightful Party.**  
 LAKE COMO, Fla., Feb. 17.—Mrs. R. H. Blood gave a delightful reception last week at her hospitable home on "The Heights," to her guests, Mrs. S. H. Hall of Gainesville, Fla., and Mrs. C. H. Carson of Boston, Ga.  
 A most enjoyable feature of the evening's entertainment was the complete disguise of the guests in phantom costume, and the fun in guessing each other as each one related a ghost story or gave a goblin song.  
 A chicken salad course was served after the unmasking, with coffee strong enough to rejuvenate the ghostliest ghost.  
 Mesdames Hall and Carson with their fascinating personality, made a most pleasing impression in Lake Como.

## LARGE CROWDS AT THE WINTER CHAUTAUQUA

Interesting and Instructive Program at Second Day's Session---Good Program for Today.

The second day of the Florida Winter Chautauqua was even more successful than the first--the weather ideal, the attendance larger, the program more extensive and a more pronounced chautauqua spirit manifest.

Wednesday morning at 9:30 o'clock Dr. D. W. Howell conducted the Biblical hour, and many took advantage of the opportunity to hear the teachings of this eminent divine. Dr. Howell will have charge of this department for several days, and as there is absolutely no charge at the morning service all may avail themselves of this opportunity of learning and becoming better acquainted with the teachings of God's word. Dr. Howell is a deep spiritual thinker, a fluent speaker, and his exposition of the Bible will prove very helpful.

At 10:30 a. m. was given the first of a series of illustrated exhibits concerning "Health" and "Domestic Science." "The Great White Plague" was a subject of much interest, being illustrated by exhibits loaned by the Anti-Tuberculosis Congress. This lecture was given by Dr. Carolyn Geisel, who has visited Gainesville during former Chautauqua. His work has always been appreciated here.

"Diet" and "Character" were the basis of a most interesting and instructive lecture by Mrs. Minnie Emmons. It was a subject that interests everyone who desires to live properly and in a way to get the greatest blessings from this life. "Soups and Fruit Nectars" were also discussed by Mrs. Emmons, and those present profited by her remarks.

The lecture at 3:30 o'clock in the afternoon was a treat. Dr. D. W. Howell, Field Secretary of the Chautauqua Movement, was the speaker, and for about an hour entertained his hearers with a most interesting lecture, which he terms "An Inverted Crown."

In the evening at 8 o'clock Prof. W.

Robert Goss delivered a lecture on the subject of "Ben Hur," one of the most famous stories of the present age. It was beautifully illustrated by stereopticon views and moving pictures, and was much appreciated by the large audience.

The illustrated songs by Miss Bartell formed an important part of the evening's program. She has a sweet voice, and it is evident that she will prove very popular with Gainesville Chautauqua-goers.

The management announces that the price of the daily tickets to the Chautauqua will be 35 cents. These tickets are transferable and are good for all daily attractions, with the exception of the days designated as "Governor Glenn Day" (Feb. 24.) and "Mrs. Gen. Pickett Day" (Feb. 26.), upon which occasions the admission will be 75 cents each day to all attractions.

### Today's Program.

The program for today is one of interest throughout, and is as follows: 9:30 a. m.--Biblical Hour, Dr. D. W. Howell.

10:30 a. m.--School of Health and Domestic Science. "Fletcherization and its Results," Dr. Carolyn Geisel. Demonstration: Rice, Macaroni, Cuts and Desserts. Mrs. Emmons.

3:30 p. m.--Lecture Recital: "Some American Writers in Prose and Verse," Wallace Bruce Amsbury, Chicago, Illinois. Solos, Mrs. Louise Morgan Amsbury.

5:00 p. m.--C. L. S. C. Round Table, "A Chautauqua Story," Dr. D. W. Howell.

8:00 p. m.--Grand Concert. Robley Male Quartette. Readings and impersonations by Bayard T. Robley, followed by illustrated songs and wonderful Moving Pictures. Prof. W. Robert Goss and Miss M. J. Bartell.

## REFORM IN LEASING OF STATE PRISONERS

WOMEN AND INFIRM MEN NOT TO BE HIRED OUT.

State Farm Is Suggested for Such, But Revenue from Leasing Convicts Will Not Be Decreased.

TALLAHASSEE, Feb. 17.--In his inaugural address last month Governor Gilchrist gave strong approval to the suggestion made by Commissioner of Agriculture that those convicts who are women and infirm men should not be leased out to contractors, but should be detained on a farm or at some other employment owned and operated by the State, and expressed the hope that this suggestion would be enacted into law.

This movement is making progress. The schedule of requirements adopted by the Board of Commissioners of State Institutions--which is composed of the Governor and his entire cabinet--with which the contractor for the lease of all State convicts for the four years beginning January 1, 1910, must comply, contains the following provision:

"Anyone presenting a bid for the hire of State prisoners is required to name therein the per capita per annum price he or they agree to pay the State of Florida for all State prisoners subject to all of the above conditions, with the express understanding and agreement that the Board of Commissioners of State Institutions shall, if authorized by law, have the right, at any time they may desire, to withdraw from said lease all women and invalid male prisoners, and from the time of the withdrawal of said women and invalid male prisoners, the lessee shall pay fifteen per cent additional on the per capita amount of said bid, as made under the terms and specifications herein set forth.

"The Commissioner of Agriculture and the Board of Commissioners of State Institutions will increase the per capita price per annum by fifteen per cent on all prisoners not so withdrawn from said lease.

"The Commissioner of Agriculture and Board of Commissioners of State Institutions reserve the right to modify any contract for the hire of State prisoners, to the extent of leasing only those capable of performing reasonable service at manual labor."

The proposal to detain women and infirm male prisoners of a State farm, thus forming a nucleus for a State penitentiary proper, now awaits only the necessary authority of legislative action, which it is believed will be given at the approaching session.

The reasons favoring the proposed change need no argument. Common decency and every other element of humanity demand that women and infirm male prisoners be not subjected to the hardships of the contract convict camps. Manifestly, these classes of prisoners are not physically able to perform the tasks of able-bodied laborers. Yet, under the existing arrangement, the contractors are required to pay the same per capita price for all prisoners, and it is human nature that these contractors will try to get full return in labor for their money from all prisoners whom they lease, be they women, men or invalids.

The proposal to detain the weaker classes of prisoners on a State farm should be as acceptable to prospective lessees, for business reasons, as it is to right-thinking citizens for humanitarian reasons. Lessees would then secure only able-bodied male prisoners, who would be much more valuable to them, and for whose labor they would naturally be willing to pay a larger per capita price than is now paid per capita for the whole body of prisoners, men and women, weak and strong. The revenues of the State would thus be fully protected and a great reform in prison management instituted.

## JONES THREW DOWN MAN WITH DYNAMITE BOMB

Man With Pistol in One Hand and Bomb in Other Demanded \$7,000.

KANSAS CITY, Mo., Feb. 17.--Armed with a revolver in one hand and a dynamite bomb in the other, a man apparently 40 years of age yesterday entered the home of Lawrence M. Jones, president of the Jones Brothers Dry Goods Company of this city, and demanded \$7,000. By a ruse, Mr. Jones overpowered the man, who was arrested.

The bomb thrower gave the name of C. H. Garnett.

Confronting Mr. Jones with a revolver, the man drew from his overcoat a dynamite bomb and explained that unless Mr. Jones gave him \$7,000 he would immediately blow him into atoms. Mrs. Jones entered the library at this point. The intruder ordered her to be seated. The conversation was resumed. Chester J. Jones, secretary of the Jones Company, a son, followed his mother, and he, too,

was ordered to be seated. Mr. Jones then suggested that as he should not have the necessary funds in the house the man accompany him to the bank. This was agreed to. As the pair were passing through the lower hall, Mr. Jones stepped suddenly back and placing his foot in front of his visitor, hurled him to the floor. Mr. Jones and his son then overpowered the man and stripped him of his weapons and called the police. The bomb did not explode when the intruder fell.

Late this afternoon police officers and newspaper men found a house described to them by Garnett. It was a small, vacant frame house in Independence. The closet contained three padlocks and a number of long chains attached to the wall. Garnett had planned to imprison Mr. Jones and keep him chained until Garnett could escape with the money.

## Brick City Badly Shaken By Severe Electric Storm

OCALA, Feb. 17.--A severe electrical storm visited this city at an early hour this morning. The wind, which at times assumed a high velocity, wrought considerable damage on several roofs, fences and other things not securely fastened. The storm caused a breakdown at the electric plant, which is something unusual for this department. About 7 o'clock last night a broken wire at the corner of The Star building caused a small blaze

and some spectacular fireworks, which necessitated turning off the current. Chief Chambers, while trying to extinguish the fire on the pole after the current had been shut off, had a narrow escape. A negro at the station, for some unknown reason, turned the current on for a few minutes, which would have proved fatal to Chief Chambers had he not turned the stream from where the fire was a second before.

## Prohibitionists Have Lost Out in South Carolina

COLUMBIA, S. C., Feb. 17.--After a sensational filibuster lasting several days it appears that prohibition has been killed in this State. The Senate has a majority of four for local option and the House is equally as close. The local option forces in the House are well organized to demand roll calls on hundreds of amendments.

The General Assembly will adjourn Saturday, which means that the prohibition

movement will fall without a special session, which is practically impossible.

The Senate yesterday killed the bill providing for an investigation of the county dispensaries by a vote of 15 to 13. This bill is regarded as a prohibitionist measure.

The opponents of the bill contended that there was no need of an investigation, there being a dispensary auditor.

## Man's Leg Was Broken In Bad Runaway Accident

CHAIRES, Feb. 17.--Last night Mr. Elton Patterson was returning from Tallahassee, when within two miles of home the pair of horses he was driving took fright and making a sudden dash, turned the buggy over, catching Mr. Patterson underneath and breaking his leg between the knee and hip, rendering him perfectly helpless. Fortunately he was near

a negro cabin, and succeeded in attracting the negro's attention. The night was dark and a slight rain was falling. The negro called up Mr. S. C. Fleming, who secured a conveyance and got Mr. Patterson home. Dr. Fred Moore of Tallahassee was called and decided that Mr. Patterson must go to Tallahassee, where he can give him the proper attention. He was taken to Tallahassee in the afternoon.

### Off for Hog Island.

Col. B. A. Thrasher and a party of friends, comprising Frank Fernandez, W. T. Richardson and others, left last night for Cedar Key, where they will proceed to Col. Thrasher's ranch on

joy the next several days. It is said that all kinds of game abound at this place and it is an easy matter to get all you want.

## What Was Transpiring in Gainesville in 1876

(Gainesville Times, Sept. 14, 21, 28, 1876--E. M. Hampton, Editor.)

A colored man in this place has informed us that several white Republicans have refused to purchase beef of him because he has announced his determination to vote the Democratic ticket. (That must have been old Frank Stewart, as he was the only Democratic negro heard of in this section during the memorable campaign of 1876.)

Mr. Langley, who has been quite sick, we are glad to learn, is improving. (This gentleman is now a resident of Maine, but is at the present time in Gainesville looking after his real estate interests.)

The fall term of the Gainesville Seminary commenced on Monday. Prof. W. C. Miller has been reappointed principal, Mrs. K. M. Denton, Mrs. J. H. Beville and Miss C. H. Matheson assistants.

We are pleased to welcome in our midst Mr. F. M. Oliver, late of Georgia. Mr. Oliver has settled here with a view of merchandising. (Mr. Oliver is still a resident of Gainesville, and is one of the most widely-known men in this section.)

We desire to express our thanks to

the foreman of The Citizen office for the use of his roller this issue. But for his courtesy we would not have been able to go to press this issue. (Col. W. W. Hampton was then local editor of The Times, and it would probably be a revelation to him to call at The Sun office and observe the improved methods for issuing a paper in even so small a city as Gainesville.)

Mr. I. E. Webster and lady, a bride and groom of a few weeks' duration, arrived on Tuesday from the North--another young couple brave enough to unite their fortunes in this season of hard times. May their bright anticipations of a happy and prosperous union be fully realized. (And they have been realized, for they have reared a family of children who are an honor to them, are proud grandparents, and possess their own lovely home in North Gainesville, no more highly esteemed people claiming this city as their home.)

As advertising finds the best market for everything else, why not for your personal services?

## GOVERNMENT CONTRACT AWARDED THIS WEEK

COMPLICATIONS SURROUNDING  
DELAY HAVE BEEN ADJUSTED.

Reliable Information Received That  
Work Will Be Commenced Within  
the Next Fifteen Days.

From Wednesday's Daily Sun:

The most gratifying news to be received in Gainesville for some time is the fact that without further delay work is shortly to commence on the Government building, which will mean that \$150,000 will be spent in this city during the coming summer months, or a large part of that amount.

From reliable information The Sun reporter was informed that the complications which have held up the signing of the contract have all been satisfactorily adjusted, and that this little routine of business will be transacted the present week. The successful bidders will put men and material on the ground within fifteen days to commence this large undertaking.

The matter that has held them off was in the trimmings of the building, but the material has been substituted around to enable the contractor to come within the required appropriation, and sufficient money will be left over to fix up the outside grounds according to the specifications.

Congressman Frank Clark has been untiring in his efforts and has been working hard for the successful ending of these plans. Through him it was learned that there would be only a short delay of a few days in completing the final arrangements, and the people of Gainesville feel assured that he has done everything in his power to push the work along as fast as possible.

Arrested on Larceny Charge.

W. E. Glover, the negro who was arrested and convicted for carrying concealed weapons, was yesterday re-arrested on a charge of larceny, the warrant having been sworn out by A. R. Harper, who claims that the pistol that was taken off him at the time of his arrest was his. The case will be heard before Justice Carlisle today.

Vagaries of a Cold.

You can never be quite sure where a cold is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. In the summer it may give you colic with diarrhoea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Painkiller in warm, sweetened water and relief will come at once. There is but one Painkiller, Perry Davis'. It is now put up in a large 50c size as well as the regular 50c size.

If it's printed stationery you want,  
The Sun office is the place to get it.

## CRACK SAFE BLOWER CAUGHT AT HIS WORK

JACKSONVILLE, Fla., Feb. 15.—A professional safe blower, giving his name as John Simpson of Curtain Bay, Baltimore, was arrested Sunday morning at 3 o'clock while in the act of blowing the safe in the store of Charles H. Burnett, in the heart of the business district. Patrolman Ammons, in walking his beat, heard a noise in the store, and, finding the door unlocked, crept in and was directly over the safe blower before the latter was aware of his presence.

Scattered about him on the floor was nitro glycerine, saws, chisels, fuses, revolvers, and all implements carried by professional burglars. The man offered no resistance.

Simpson made a confession at police headquarters, saying that he has been operating for some time in Jacksonville and was a pal of Charley Silas, the Yeggman who was killed by a policeman at Laurens, S. C. Simpson said he would have killed the policeman but he thought that there was more than one of them.

C. R. Kluger, the jeweler, 1060 Virginia avenue, Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." J. W. McCollum & Co.

Money Car Arrives.

From Wednesday's Daily Sun: The money wagon of the A. C. L. visited Gainesville yesterday and gladdened the hearts of the large number of employees in this city. The company have a very large pay roll and the money thus expended goes into the channels of the local trade to a large extent and is agreeably felt among the local merchants.

## MORE GRANOLITHIC SIDEWALK BUILDING

SOUTHERMOST SECTION ALIVE  
TO NEEDED IMPROVEMENTS.

Dr. Kelley, J. F. Bunch and Many  
Others to Have Walks Built  
of This New Material.

Southwest Gainesville is among the sections of the city that is fast coming to the front in improvements, and the citizens in that section are alive to the fact that to make it attractive they must get busy.

The granolithic sidewalk fever has struck that section, and J. F. Bunch, Dr. J. L. Kelley and others will soon have this class of walk placed around their premises. O. C. Tousey and many others are also contemplating having this work done within a short while.

Mrs. Witherspoon has just had granolithic walks placed around her property, and with what is now anticipated it will give all of that section fine walks, something they have never enjoyed heretofore, and make property more valuable in those quarters.

Building Large Home.

A. L. Craig, who has been visiting Gainesville for the past several winters and who has become very favorably impressed with the city, is now building a large two-story 9-room house on his lot in East Gainesville. The building when completed will be a handsome structure and will add to the looks of the fast growing section.

## RICH RED BLOOD

You Will Never Have It as Long as  
You Have Dyspepsia.

Just as long as you have dyspepsia your food will not properly digest, and the nutritious elements in the food will not be extracted or absorbed, and impoverished or watery blood will follow.

This condition may not be apparent at first, but it will come just as sure as the sun will rise again.

Any stomach ailment, including all forms of indigestion, can be promptly cured by using Mi-o-na tablets, a scientific treatment unsurpassed.

It stops fermentation, belching of gas and taste of sour food almost at once.

The mighty power of Mi-o-na to invigorate and restore the stomach to perfect condition is known everywhere.

Mi-o-na cures by building up—by banishing the cause. For thin people it is a great flesh builder, because it causes the stomach to give more and purer nutrition to the blood. It cures sea and car sickness and vomiting of pregnancy almost immediately. J. W. McCollum & Co. sell Mi-o-na for 50 cents a large box, and guarantee it to cure or money back.

## JIM WOODS ESCAPES FROM STATE PEN

SERVED ONLY THREE MONTHS  
OF HIS TIME.

Well-Known Here, Having Operated  
a Blind Tiger Business for Some  
Time Before His Capture.

From Tuesday's Daily Sun:

Jim Woods, the negro sent up from Alachua county for selling "booze," has made his escape from the camps and is supposed to be in this section of the State.

Woods is a conspicuous figure and is well-known here. For many months he operated a hack, and is a darkey who would be easily remembered when once seen, and the authorities believe that he is now in hiding near this city, his family now living here.

The negro was sent up at the last term of court and sentenced to twelve months for selling liquor, but he had served not quite three months when he made his escape on last Saturday near Dunnellon and has since been at large.

He is about six feet tall, ginger-cake color, and rather slim, generally neatly dressed, with far more intellect than the average negro. A reward has been offered for his capture by the authorities, who are doing everything possible to apprehend him.

### MARRIED AT NEWBERRY.

Two Popular Young Couples United  
by Judge Ira J. Carter.

NEWBERRY, Feb. 15.—One of the prettiest weddings ever witnessed in this city was that of Mr. L. W. Webster and Miss Atlanta Studstill on the night of Feb. 10th, at the residence of the bride's parents, Mr. and Mrs. H. Studstill, Judge Ira J. Carter officiating. The bride was beautifully attired in white satin, while the groom looked his best in conventional black. At 8 o'clock p. m. the house was crowded with guests. At 8:15 Mendelssohn's Wedding March was played by Mrs. S. P. Getzen, and the Judge tied the knot that made them both one.

The house was tastefully decorated with ferns, flowers and Japanese lanterns. After the ceremony the happy couple departed for their home in the suburbs of town.

Mr. Webster holds a position with the Cummer Lumber Company in the phosphate department here, his home being in Sandersville, Ga.

The bride is the youngest daughter of Mr. and Mrs. H. Studstill, formerly of Levy county.

Married, at the residence of Mr. T. B. Hodge on Sunday night of the 7th inst., Mr. Jim Davis and Miss Annie Splera, Judge Ira J. Carter officiating. The bride was beautifully dressed in white, while the groom wore conventional black. After the ceremony the guests were invited to the dining-room where the table was loaded with all kinds of eatables.

### Miss Blessing Returns.

From Tuesday's Daily Sun:

Miss Helen Virginia Blessing, the fashionable milliner for The G. W. Hyde Company, has returned from the Baltimore, New York and Philadelphia markets, where she purchased the largest and most elegant line of millinery ever brought to Gainesville, which will soon arrive. The latest creations in designs were selected with the utmost care, and Miss Blessing says husbands may as well prepare to increase their appropriations for millinery this year, as the elegant designs this year are sure to cause the ladies to call for larger amounts than usual.

Itching, bleeding, protruding or blind piles yield to Doan's Ointment. Chronic cases soon relieved, finally cured. Druggists all sell it.

## AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pink-  
ham's Vegetable Compound

Baltimore, Md.—"For four years  
my life was a misery to me. I suffered

from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though new life had been given me, and I am recommending it to all my friends."—Mrs. W. S. Ford, 1938 Lansdowne St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice write to Mrs. Pinkham, Lynn, Mass., for it. She has guided thousands to health, free of charge.

### CLINE—COOK WEDDING.

Happy Pair Join Future Destinies on  
Last Sunday Noon.

From Tuesday's Daily Sun:

Dr. A. E. Cline and Miss Bertha Cook were married on Sunday noon at the residence of J. Manasse, North Pleasant street, Rabbi Victor Caro of Milwaukee performing the ceremony, Miss Ida Burkheim playing the wedding march.

The wedding was a very quiet affair and only a few of the friends of the couple were aware of the engagement which terminated in their union.

Dr. Cline is a new arrival in the city, and while he has been here only a few months he has already established a lucrative practice and made many friends, who extend to him and his lovely wife their best wishes.

The bride has resided here since childhood, and has a large circle of friends who have learned to admire her for her many lovely traits and amiable disposition.

### A Happy Union.

From Tuesday's Daily Sun:

Mr. W. V. Mitchell, who conducts the photograph gallery near the fire station, and Mrs. Gertrude Brown of Waycross, Ga., were married at the home of Mr. and Mrs. Adams, 399 S. Oak avenue, Saturday night, 13th inst., Rev. F. R. Bridges, pastor of the First Methodist church, officiating.

The bride has only been in Gainesville a few days, and when she visited Mr. Mitchell's photo gallery it was love at first sight between them. The people of Gainesville extend them congratulations, and wish them a long and happy married life.

### Welcome Home.

Mrs. Rosa Waters, the popular chief delivery clerk at the postoffice, has returned from Brunswick, Ga., where she was called on account of the serious illness of her sister. Her many friends, which means everybody who has business at the postoffice, heartily welcome her back. During her absence Mrs. W. T. Zetrouer, the assistant delivery clerk, has handled the delivery of mail from the window with promptness, though the work has been very burdensome at times.

## CHUBB ENTHUSIASTIC OVER THE INAUGURAL

SAYS GREAT PREPARATIONS BE-  
ING MADE FOR EVENT.

Washington City Will Witness the  
Greatest Inaugural Ceremonies  
in History of the City.

Col. Henry S. Chubb, receiver of the U. S. land office, has returned from a pleasant visit of ten days at the National Capital, where he went concerning important political matters.

He mingled freely with the Florida delegation and says that each and everyone are to be found on the alert and working for the interest of the State and the sections they represent in particular. He found Congressman Clark busy with the public building proposition, while Senator Tallaferra was especially active in regard to his turpentine bill.

Speaking of the inaugural ceremonies which occur on March 4, Col. Chubb said: "It will be the grandest, greatest and biggest ever in the City of Washington, and much preparation is now being made for it."

"Advices have been received from nearly all the States that the Governor, with his staff, will be present to witness the ceremonies, and besides numerous civic organizations throughout the country will be in line of this grand occasion."

"Grand stands are being built in every park and plot of ground along the line of march, besides windows in every building along the route have been rented at fabulous prices, which shows that the people of the Capital are expecting immense crowds."

"More Southern people are expected to attend this inaugural than ever before, owing to the recent visit of President Taft into Southern territory."

"The people generally expect much of President Taft's administration, and I confidently predict and expect that he will meet the expectations of all, judging solely by my acquaintance with him."

### Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by all druggists. Price, 75c per bottle.

Take Hall's Family Pills for constipation.

### He Likes Gainesville.

From Tuesday's Daily Sun:

Joseph Minchener of Birmingham, father of Mrs. Chas. Faircloth, left for his home Monday, after having spent several days here on a visit. He is well pleased with this part of Florida and may be a regular visitor here in future winters.

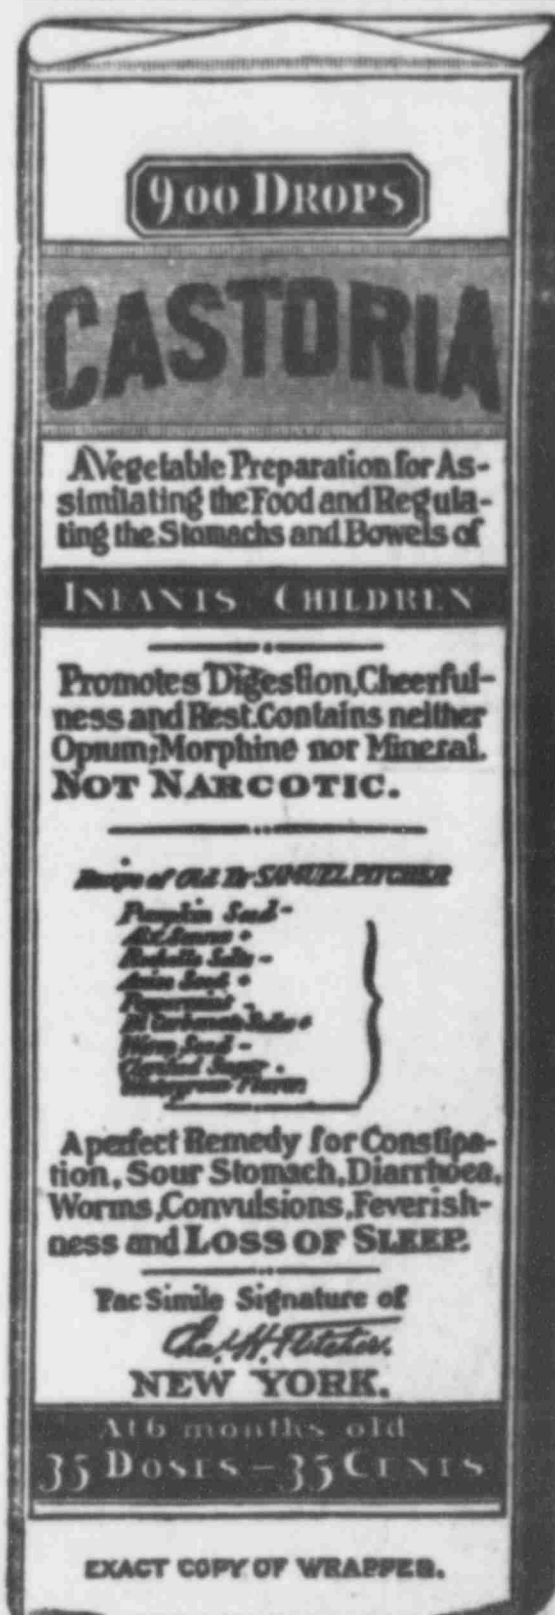

### Worn Out.

That's the way you feel about the lungs when you have a hacking cough. It's foolishness to let it go on and trust to luck to get over it, when Ballard's Horehound Syrup will stop the cough and heal the lungs. Price 25c, 50c and \$1.00 per bottle. Sold by W. M. Johnson.

### Story Captures Georgia Negro.

Deputy Sheriff L. E. Story of Windsor was in the city Monday, having come for the purpose of bringing Monroe Carr to the city and placing him in jail. Carr is wanted by the authorities of Georgia and a neat reward is out for him.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. J. W. McCollum & Co.

## CATARRHAL ASTHMA.

One Bottle of Pe-ru-na.

MR. F. L. BOULLION.  
MR. F. L. BOULLION, 2618 State  
St., Little Rock, Ark., writes:

"I have been a sufferer with the asthma for about four years, and I tried different kinds of medicines and could not find any relief for it.

"I tried your medicine, bought a bottle of Peruna, and after taking about half of it I must say that I have not had the asthma since. Before I took the medicine I did not know what it was to bed without having the asthma."

### Systemic Catarrh.

Mr. Samuel Burden, 701 Springfield Ave., Summit, N. J., writes:

"In the fall of 1900 I had repeated attacks of cold, which developed into systemic catarrh.

"It left me very weak and all run down. When I got up in the morning it would take about an hour to get my head and throat clear.

"It also left me with a very weak, all-gone, empty feeling in my stomach, which I thought was dyspepsia, for which I tried different remedies with very little improvement.

"I finally decided to give Peruna a trial. I felt benefited with the first dose. After taking three bottles I was entirely cured. I cannot speak in too high terms of your wonderful discovery, Peruna."

Peruna is manufactured by the  
Peruna Drug Mfg. Co., Columbus, Ohio.

## REAL ESTATE SALES BECOMING ACTIVE

FOUR TRANSFERS RECORDED BY  
CLERK ON WEDNESDAY.

City and County Property Alike is  
Changing Hands and Realty  
People Are Satisfied.

Real estate has again taken an active start and many transfers are now being recorded daily in the court house, both of city and country property, and while the records only show where the transfer has really been made, it will give the citizens an idea of what is doing along this line.

There are numerous purchases made each week, but the larger part of them are made on the easy payment plan, and therefore no record is made of the transaction until the final settlements have been made in the case.

Following is a list of real estate transfers in the clerk's office on last Wednesday:

Heirs of S. W. Teague to Dr. E. B. Howell; Wm. Yeats and wife to J. V. Talley; F. P. Henderson and wife to J. M. Price; F. P. Henderson and wife to Nathan Price.

The above shows the city transfers, as well as two country changes, and this was not considered an extra good day, for there have been a large number on several days recently.

### Card of Thanks.

Editor Sun: Please allow me space in your valuable paper to thank my many friends for acts of kindness shown us during the severe illness of my little nine-year-old daughter. She suffered excruciating pain for fourteen days and nights, and was skillfully treated by Dr. F. McRae, who was ably assisted by Dr. Paxton, a visiting physician from the North.

Scores of prayers ascended to God for her recovery, and loving hands ministered to our necessities by day and by night.

I shall never cease to love those who have done so much for us.

Prayers have been answered, medical treatment and loving care has been sanctified to her healing, and now she is rapidly recovering.

Again thanking all who have assisted us in any way I am,

Their loving brother in Christ,  
T. L. Z. BARR.  
Melrose, Fla., Feb. 17, 1909.

### Off for Bar Association.

Judge Syd L. Carter left yesterday for St. Augustine via Jacksonville, having some business in the metropolis before proceeding to the Ancient City. He goes to the latter place to attend the annual meeting and banquet of the State Bar Association, and will be among the number to respond to a toast at the grand banquet with will be served at the Ponce de Leon. Among the distinguished speakers to be present at the meeting will be Col. Hammis Taylor, who was minister to Spain under the administration of President Cleveland.

### East Main Street.

East Main street, from Union south, is being repaired by the unloading of a quantity of clay and sand, which in wet weather will prove as much annoyance to the traveling public as the partial sand bed that it formerly represented. Many people argue that clay does very well in the suburbs, where nothing better can be secured, but to place this material on rock streets is spending time and money that could be better used.

### Rapidly Building Up.

Dr. J. L. Kelley is having a new and modern house built near his old residence, which will be a credit to that portion of the city. This section has built up considerably within a short while and many new improvements are now in contemplation.

Pensacola building operations since the storm of September 27, 1908, show that, including buildings which cost \$25,000 or more, no less than \$3,000,000 has been expended in that line alone, which shows 50 per cent increase in building operations for a similar time prior.

The Ormond Beach Hotel guests have raised over \$900 for the dining-room girls and maids who suffered heavy loss in the Clarendon Hotel fire at Seabreeze.

## For Croup Tonsilitis and Asthma

## NEARLY 300 BURNED IN MEXICAN THEATRE

Tragic Ending of Gala Performance---Americans Are  
Among Those Who Lost Lives.

MEXICO CITY, Feb. 16.—Between 250 and 300 people were burned to death and many were injured in a fire which destroyed the Flores Theatre in the city of Acapulco Sunday night. The news of the disaster reached this capital this afternoon, telegraphic communication with Acapulco having been destroyed owing to the fact that the telegraph office adjoining the theatre was burned and all wires put out of commission.

The floor of the theatre was a wooden affair and Sunday night over 1,000 people crowded into it to witness a special performance, given in honor of Gov. Damian Flores of the State of Guerrero, who was visiting the port at that time.

### Many Are Roasted Alive.

One of the numbers of the program consisted of a series of moving pictures. While the operator was exhibiting these a film caught fire and a blaze was quickly communicated to some bunting, which had been used for decorative purposes. In an incredible short time the flames spread to all parts of the structure. There were but three narrow exits and the panic-stricken audience rushed to these, many falling and being crushed to death, their bodies choking the way of escape to the others.

The screams of those imprisoned were terrifying and heart-rending. Owing to the rapidity with which the fire spread and to its intense heat it was impossible to attempt rescue work and those imprisoned were literally roasted alive, as the fire burned with little smoke, and few were suffocated.

### Bodies Beyond Identification.

The efforts of the fire department

were confined to the attempt to save adjoining buildings and they succeeded so that the property loss was small.

The telegraph office, postoffice and customs house were damaged, but all of the government records and registered mail was saved.

Yesterday pitiful scenes of grief were being enacted in the streets of the little West Coast port. Men, women and children are wandering from place to place, hunting for relatives and friends. Many of the dead are from the first families of the State, the affair at the theatre being a social event of considerable importance, and calling out the wealthiest and oldest families for miles around. In some instances entire families were wiped out of existence.

The municipal authorities caused large trenches to be dug, and into these the remains of the dead were laid. According to the telegrams received from there recognition of any of the dead has been an impossibility owing to the fact that the bodies were burned in most cases to a crisp.

### Americans Are Victims.

Telegrams to the American consuls at Acapulco by the Associated Press asking for the names of the American dead, have as yet not been replied to. Acapulco, on the West Coast of the State of Guerrero, is one of three important ports of the Pacific Coast of Mexico. Nearly all of the steamship lines make it a port of call, and the harbor is said to be the best in Mexico.

Want advertising is a force which you can harness, and with which you can drive your plans and purposes to any desired destination

## Waters-Pierce Oil Co. May Be Ousted From State

JEFFERSON CITY, Mo., Feb. 16.—On the ground that the Waters-Pierce Oil Company of Missouri has not complied with the ouster decree of the supreme court of the State in an answer filed this morning, Attorney-General Major this afternoon filed with the court a suggestion that the ouster be made effective against the concern. The action of the attorney-general is based upon the fact that the company has not furnished satisfactory evidence that it has severed relations with the Standard Oil Company.

Henry S. Priest of St. Louis and H. Clay Pierce, chairman of the board of

the Waters-Pierce Oil Company, yesterday filed in the supreme court of Missouri an acceptance of the terms imposed upon the company by the recent ouster order of the court. The fine of \$50,000 was paid.

The ouster decree provided that the company must show to the court that it had severed all connection with the Standard Oil Company. A statement to this effect may yet be required by the court.

Judge Priest, however, said that he believed yesterday's action covered the case so far as the Missouri corporation is concerned.

Johnny Johnson, who was stabbed in a saloon in Jacksonville Sunday afternoon by Z. T. Ducker, died Wednesday from the effects of the wound. Ducker is in jail charged with murder. Both men are white.

Decomposed beyond identification, the body of a white man was found under a dock in Jacksonville.

Pineapple shipments from Punta Gorda are somewhat light this year.

## ELEGANT CLARENDON DESTROYED BY FIRE

DAYTONA, Feb. 15.—The Hotel Clarendon at Seabreeze, one of the largest resort hotels on the East Coast, was totally destroyed by fire early Sunday morning. The 215 guests, who were asleep at the time, were saved without injury, and many were able to gather up most of their belongings.

When the blaze was first discovered the night clerk rushed the help to each room, notifying guests, who made their way hurriedly to the streets. At one time the blaze appeared to be under control, but the wind shifted and it broke out anew, and in less than three-quarters of an hour the entire building was burned.

The ten cottages owned by H. R. Kochersperger caught from sparks and all were burned at the same time. The hotel help were panic stricken and the clerks could do nothing with them, one woman biting the clerk badly on the hand. The hotel was a wooden structure valued at \$300,000 and was insured for about 40 per cent.

When the fire alarm was sounded in Daytona hundreds of persons from

here rushed across the river to Seabreeze, but even with this additional help the fire could not be checked.

The fire was discovered by the bakers who were just going to work. It originated in the coal bins under the kitchen and at first it seemed that the fire extinguishers would do the work, but there was some difficulty in getting the water faucets to working, and seeing that the fire was beyond control, the guests were notified to run for their lives.

Twelve extra policemen were called out and they did excellent work. The roof of the Cherokee home of Mr. Kochersperger caught from sparks, and but for the heroic efforts of Mr. Gibson, a guest of the Seaside Inn, and others, who climbed to the roof, it would have been destroyed.

The Clarendon was just beginning the season which promised to be its most prosperous. Every room in the big hotel was engaged.

The awake person reads the want ads. every day—and answers some almost as often.

His visit to Gainesville has been delayed on account of other dates.

Mr. Broward says Mr. Jennings was not paid \$15,000 in 1907 and \$17,000 in 1908 as legal adviser to the trustees of the Internal Improvement Fund; that he was paid \$5,000 per annum for such services, and the \$22,000 excess was for commissions on land sold by Mr. Jennings. Gee! but didn't some people get big "rake offs" during Broward's reign as Governor?

The people of Lakeland are to be congratulated upon the saving of the life of an innocent negro last week who was about to be burned at the stake, for the execution of an innocent person in such a horrible manner would forever have been a blot upon the fair name of that rapidly growing city. Few persons, however, will censure the people for putting Jack Wade to death after he had been positively identified by the young lady whom he attempted to outrage.

MR. HENRY M. FLAGLER.

"Mr. Flagler has just entered on his 80th year. His vision is not as clear as it once was and he is somewhat deaf in one ear, which causes him some embarrassment. Except for these infirmities he is suffering from no physical ailments. Tall and erect he still presents a perfect type of manhood. He prefers a straight back chair, and never occupies a rocker unless there is nothing else to be had."

The above is one short paragraph from an interesting sketch of Mr. Henry M. Flagler by Editor Frank Harris of The Ocala Banner, and who recently enjoyed the rare privilege of a trip with the subject of his sketch to view the great work of the Florida East Coast Railway extension to Key West.

To us this paragraph is the most interesting, most significant one in all this most entertaining story, much of which has to do with Mr. Flagler's diet, his rest, his recreation, his religion and his politics.

In his eightieth year and his hand still on the lever which directs what has been fittingly described as one of the greatest engineering feats of the century!

The News doesn't know Mr. Flagler personally. Its knowledge of him has been obtained through newspaper accounts and through his activities in behalf of our beloved Florida. But had it been asked to name his age this paper would have said he was 60 years young rather than 80 years old.

When a man by reason of strength is approaching the four score mark there is due him the respect of his fellows. When his life has been filled with activities which sprang from a desire to benefit mankind, to respect there should be added profound reverence.

In his eightieth year and still a commanding general in the world's work!

Whether or not Mr. Flagler lives to see the full benefits of his work, he is doing a brave thing and one that marks him as the right kind. Too many men "lie down" under the weight of years and look forward to death with a lamblike submission. Mr. Flagler has evidently refused to die until his time comes. His interest in life abides because he keeps on living and refuses to become a living corpse. He is brave, and his bravery will more than anything else tend to prolong his life until he has accomplished his life's work.

Let old men take example and courage from Henry M. Flagler.

They can't all build a railroad across the sea, but they can do the work which Providence has assigned them. There is nothing in life but what we put into it. The secret of a happy and brave old age is in the interest men retain in their fellows and the world they live in. Many a man is dead at 40 and doesn't get ready to be buried until he has existed years after his demise to all practical and useful purposes, while others, like Mr. Flagler, keep on with their work, serene in the knowledge that the benefits of their labor will be reaped, if not by themselves, by those who are in greater need and who will get the greater good.

All honor to Henry M. Flagler, the man who, having made the waste places of the East Coast of Florida to blossom as the rose and a fitting place for the habitation of progressive thousands of industrious men and women, is still at it with an even more gigantic enterprise.—Palatka News.

#### CURRENT COMMENT.

The Montgomery Advertiser says: "And so, after all, it seems that Taft is to inherit Crum—and we bet he'd rather eat Georgia possum. Nothing but obstinacy and spite can account for the persistency of Roosevelt in trying to force the negro on the people of Charleston, and it is to be hoped that Mr. Taft will have more regard for propriety and for the wishes of the Charlestonians than the present incumbent has done."

The Hartford Times says: "The Kentucky Court of Appeals decides that the riot clause in the underwriting policies saves the insurance companies from responsibility for the insured tobacco that has been destroyed by the night riders in that State. The operations of the night riders, according to the tribunal, come within the scope of riots, and this judgment appeals to common sense, although it inevitably imposes hardships on the tobacco growers. Night riders are also night rioters."

The Norfolk Virginian-Pilot says: "When the weather is bad, sensible people do not lay the blame on the thermometer or barometer. When the wind sets in the wrong direction, we do not censure the vane of the steeple. When the jury brings in a verdict seemingly inconsistent with law and justice, we should not inveigh against the jury system but against the public sentiment of which the jurymen are the exponents. The mawkish sympathy for criminals which pervades all classes of society is responsible for the laxity with which the penalties of the law are enforced."

The Philadelphia Record says: "There have been very considerable contributions in aid of negro schools in the South at the hands of Northern givers, but according to evidence supplied to The Montgomery Advertiser by the officials of the State Colored Teachers' Association of Alabama the South has spent fifty dollars for educating the negro where the North has spent one dollar. Taken as a whole, the condition of the negro population of the South is far preferable to that of the negroes who have drifted Northward. The measure of difference may be broadly gauged by this disparity of contribution for school purposes."

## CHILD'S DREADFUL SKIN TROUBLES

Had Sixty Boils when but Six Months Old—Was Annually Attacked by a Humor—It Looked Red Like a Scald and Spread Over Half Her Head—Both Troubles are Cured.

### NO PRAISE TOO HIGH FOR THE CUTICURA REMEDIES

"When my little Vivian was about six months old, her papa had a boil on his forehead. At that time the child was covered with prickly heat and I suppose in scratching it, her own head became infected for it broke out in boils, one after another. She had about sixty in all and I used Cuticura Soap and Cuticura Ointment which cured her of them entirely. Then, sometime later, her little foot got sore between the toes. Being afraid it was salt rheum, I spoke to our doctor. He gave me a powder which dried it up, but soon after it broke out behind her ears. They cracked half way around and the humor spread up on to her head until, on several occasions, it was nearly half covered. The humor looked like a scald, very red with a sticky, clear fluid coming from it. This occurred every year. I think it was toward the spring. I always bathed it with warm water and Cuticura Soap and applied Cuticura Ointment which never failed to heal it up. The last time it broke out was when she was six years old. It became so bad that I was discouraged. Then I procured a bottle of Cuticura Resolvent which soon cleared it out of her blood. I continued the use of Cuticura Soap and Ointment with the Resolvent until she was perfectly well. She is now about eight years old and has never been troubled in the last two years. We also find Cuticura Resolvent a good spring medicine and we are just giving the children Cuticura Resolvent Pills as a tonic. We do not think any one can praise Cuticura Remedies too highly. #### HE OBJECTS.

The Sun is in receipt of the following from an esteemed patron of The Sun whose opinion the editor has great respect for:

"I don't think special legislation should be made on the sale of seed cotton, for there are many of our farmers who make less than a bale and have to use it for home protection as soon as gathered. It will be throwing all favors in the hands of the big planters, who can get help without selling their cotton, and the poor child can go naked and cry for bread, etc. Our poor are to be protected, or we are going to have serious trouble this side of Japan."

As we understand the matter, it is the desire of the Farmers' Union, which organization is asking for legislation prohibiting the sale of Sea Island cotton in the seed during certain months, to endeavor to get a general law of this kind enacted. Failing in this, the Farmers' Union of Alachua county will ask for a special law for Alachua county.

The fact that the farmers who produce less than a bale of cotton throw the same upon the market at whatever price they can get for it, is what prevents those who make a business of growing cotton from obtaining a remunerative price for their product. If the proposed legislation will enable the large cotton grower to obtain a better price for his crop, will it not also benefit the small grower in proportion to the amount he produces?

One of two things is certain, either the cotton growers must receive a better price for their crop than has prevailed during the past, or they will be compelled to abandon the crop.

If the farmer now engaged in growing less than a bale of cotton would devote the same time to the production of potatoes, vegetables for the home market, poultry, eggs, hogs, cattle, etc., he would soon discover that he profited thereby.

This is the way The Sun views the matter from the unprejudiced standpoint of one who desires to see the greatest good done for the greatest number. We do not claim to know it all, however, and invite discussion of the proposed legislation.

The Emperor William has secluded himself a good deal since the criticisms so unsparingly made upon him for his indiscreet utterances on international affairs. It is now stated that he intends to strike back at the German papers that have criticised him. He had better leave well enough alone. The hearty reception accorded him on his birthday showed that his popularity was returning, and criticisms have ceased. It is always well not to disturb sleeping dogs, but the press will certainly be awakened again if he throws sticks at it.

Now therefore, all persons interested in the estate of M. J. Holt are required to appear before me at Gainesville, Florida, on the 24th day of March, A. D. 1909, to show cause, if any, why said petition should not be granted. H. G. MASON, County Judge.

## Prohibitionists Are Now After Blue Grass State

LOUISVILLE, Ky., Feb. 15.—Kentucky, second liquor-producing State in the Union, and up to this time unscathed by State-wide prohibition fight, will be the battlefield for the declaration of total prohibition, from Tuesday, February 16, forward. On that day the Anti-Saloon League and kindred temperance forces will meet in Louisville, and the upshot of the meeting will undoubtedly be the passing of resolutions calling on Gov. Willson to summon the Legislature in extra session for the consideration of State-wide bill, or for uniform county local option embracing cities of the first and second classes.

The chief interest point of the convention, beginning Tuesday, is a speech to be delivered by E. C. O'Rear, the retiring chief justice of Kentucky court of appeals, who has previously declared in favor of total prohibition for the State and nation, even to the abrogation of consumption, purchase and manufacture of whiskey.

## Arizona and New Mexico En Route to Statehood

WASHINGTON, D. C., Feb. 16.—The long struggle of Arizona and New Mexico for separate Statehood was rewarded Monday in so far as the House of Representatives is concerned when that body, under the suspension of the rules, unanimously passed the bill granting Statehood to the two territories.

Mr. Hamilton, Michigan, having the measure in charge, spoke briefly in support of it. He said it was not a party question. Both sides, he declared, "were now rallying to fulfill party pledges."

Mr. Smith, Arizona's delegate, made

a plea for the passage of the bill. That such a bill had not been passed before, said he, was a matter which stood as a shame against the record of Congress.

There were cries of "Vote!" "Vote!" but the ballot was not taken until Representatives Stanley, Kentucky; Caulder, Mississippi; Cole, Ohio, and Sulzer, New York, had eulogized Delegates Smith and Andrews and predicted their early return to Congress.

## THE WHITEFLY IN CHINABERRY AND UMBRELLA TREES---HOW SCATTERED

By E. W. BERGER

Florida Agricultural Experiment Station

It has been calculated by Professor H. H. Rolfs, that the whitefly population, in midsummer, of a fully infested umbrella tree of medium size, bearing about 20,000 leaves, may be 20,000,000 larvae. Dr. A. W. Morrill, basing his calculations upon a tree of similar size, gives an estimate of about 11,000,000. Both of these investigators, in order to be well on the conservative side, accepted the lowest figures of their calculations; whereas the average number of insects per leaf, according to their actual counts, would have given something like 70 to 80 millions as the number of larvae per tree. From this last estimate, it is evident that a large umbrella tree may harbor a hundred millions of whitefly larvae at one time. Allowing a dozen large umbrella trees to a town, we may have upwards of 1,200,000,000 adult whiteflies coming out of these trees during the latter part of summer.

### What Becomes of the Whiteflies.

Careful observations have shown that these swarming millions of winged whiteflies deposit only a comparatively small number of eggs upon the leaves of the Chinaberry and umbrella trees at this time, but quit these trees and deposit eggs upon evergreen food-plants, principally citrus, privet and cape jasmine. Whether they do this instinctively, because the Chinaberry trees lose their leaves in the fall and winter, so that the larvae from any eggs laid on their leaves must die; or whether the leaves of these trees have developed some repellent quality; or whether the quitting of these trees is caused by overpopulation, does not affect the result. The fact is that these whiteflies swarm about and either fly or are driven by the wind for long distances, many of them finding at last suitable plants on which to deposit their eggs.

Last summer the small citrus trees at the Experiment Station were free from whitefly; but in August and September thousands of whiteflies were hovering about and depositing eggs, so that by the end of fall these citrus trees were as heavily infested as citrus trees commonly become. The nearest infested trees from which the whiteflies could have come were um-

rella trees in Gainesville about a mile away, so that the whiteflies had to travel at least a mile. That many whiteflies must have gone farther out into the country than the Experiment Station, can hardly be doubted, considering the great numbers in which they were swarming about, not only on citrus trees, but on other plants on clothing, windows, and vehicles. The principal food plants in Gainesville and North Florida are Chinaberry trees, there being only enough citrus, privet and other evergreen food plants to bring about the restocking of the deciduous trees every spring.

### What Is to Be Done.

That hundreds of millions of winged whiteflies may become matured on Chinaberry and umbrella trees, and that these hordes of insects may swarm for the distance of at least a mile, and perhaps several miles, from their places of breeding is an established fact. Therefore these trees should be destroyed before next spring, and before they become infested again by the spring brood of whiteflies. They should be destroyed for three reasons.

1. Because these trees reduce efficiency of all measures for the control of the whitefly by one-half or more, or perhaps nearly nullify them, by setting free swarms of whiteflies into the citrus trees at a time when the fruit is maturing and it is most desirable to have the trees free from whitefly.

2. Because in newly infested localities these trees are hastening the dissemination of the whitefly into the non-infested groves. Besides the spreading of the whiteflies from them through the air, teams are hitched under such trees, and the vehicles become agents in carrying the insects into other parts of the country, or to other Chinaberry or umbrella trees, under which the team might again be hitched.

3. Because of the nuisance to man and beast from the myriads of whiteflies which frequently fill the air in whitefly infested sections. That this nuisance is principally due to the presence of Chinaberry and umbrella trees is evident from the fact that it occurs in sections where there are Chinaberry and umbrella trees, but where few or no orange trees are grown.

## NIAGARA FALLS IS BLOCKED WITH ICE

NIAGARA FALLS, N. Y., Feb. 15.—Only a tiny rivulet, not deep nor swift enough to carry a pulp log over the brink, is floating over the American side of Niagara Falls. A strong northeast wind, which has blown since Friday, has held back the water and allowed the ice to gain a foothold.

A great wall of ice runs from the head of Goat Island to the American mainland, through which only tiny streams are able to trickle. This wall has even encroached on the Canadian channel, extending out some 200 feet beyond the third Sister Island and greatly diminishing the flow over the horseshoe. Only the very apex of the Canadian fall is left and that is robbed of half its flow. The gorge below is choked and the rapids have lost their fury, while the whirlpool is barely in motion.

This is only the third time that this combination of wind and ice has thus affected the falls since the white man came here. The other occasions were March 29, 1848, and March 22, 1903.

MELROSE, Feb. 15.—Mrs. J. A. Waters and Miss M. McLain entertained Thursday afternoon quite a number of their friends at cards, "500" being the game. The large room was tastefully decorated with bamboo and red hearts of various sizes. The very pretty hand-painted score cards were the work of Mrs. Waters. At the end of the game the lucky winners received their prizes, and finally delicious refreshments in three courses were served. Altogether it was a most enjoyable function.

## SEABOARD DEPOT IS BURNED AT LAWTEY

LAWTEY, Feb. 15.—The Seaboard Air Line depot here was discovered to be on fire about 1 o'clock this morning, and the flames ate their way through the inflammable material with such rapidity that it was impossible to save either the building or any of the freight stored therein, the loss being total. Just what the loss will be is impossible to estimate during the excitement, as no one who is approachable knows what amount of freight was stored in the depot. The value of the building is estimated at \$800.

The origin of the fire is not known, as it had gained considerable headway when discovered.

## Have Your Eyes Examined and Glasses Fitted

By a Competent Optician

A poor optician can, in a few minutes, do more harm to your eyes by fitting glasses that are not suited for your eyes than an able and competent optician can remedy in six months.

Vision is our most valuable sense and the eyes, once impaired, cannot be restored.

We appreciate our responsibility in this matter and give each case our most careful attention.

We test each eye separately, determine the exact condition and the needs of each, and supply the lens needed to correct and strengthen the eyes.

All our work is guaranteed; you must be satisfied or we are not.

## JUSTICE CARLISLE'S COURT.

Glover in Trouble Again on Account of Same Pistol.

From This Morning's Daily Sun:

W. E. Glover, the negro arrested some time since and convicted on a charge of carrying concealed weapons, was up again yesterday before Justice J. A. Carlisle on a charge of larceny of the same gun.

The warrant was sworn out by A. R. Harper, who proved that the property was his, and Glover's evidence was insufficient to convince the judge that he had not stolen it.

For this last offence he was given ninety days in the "gang" or a fine of fifty dollars. The total amount on this same gun will give him six months or a fine of \$150 and costs.

## Gave Delightful Party.

LAKE COMO, Fla., Feb. 17.—Mrs. R. H. Blood gave a delightful reception last week at her hospitable home on "The Heights," to her guests, Mrs. S. H. Hall of Gainesville, Fla., and Mrs. C. H. Carson of Boston, Ga.

A most enjoyable feature of the evening's entertainment was the complete disguise of the guests in phantom costume, and the fun in guessing each other as each one related a ghost story or gave a goblin song.

A chicken salad course was served after the unmasking, with coffee strong enough to rejuvenate the ghostliest ghost.

Mesdames Hall and Carson with their fascinating personality, made a most pleasing impression in Lake Como. C. H.

## Only Girls to Remind Him.

C. I. Baird of Asheville, N. C., is among the arrivals in the city. He will doubtless be remembered by a great many people, as he was here just 22 years ago and was for a long while a school mate of Col. Evans Halle. He has been about the city and declares that the only thing he finds to resemble the Gainesville of old is the large army of pretty girls, and but for this fact he would not believe he was in Gainesville. A good many citizens were glad of the opportunity to shake his hand. He will be here for the next several days, and proposes to see the city thoroughly before his departure.

## Marriage at Alachua.

A marriage license was issued Wednesday for the union of Mr. R. L. Boule of Kanapaha to Miss Maggie Kirkland of Alachua, the happy event occurring in that place on Wednesday evening.

Mr. Boule is well-known in Gainesville and was for many years a resident of this city. He is now employed as book-keeper for T. J. Swearingen. The bride is one of the charming young ladies of the Alachua section and has a large circle of friends throughout the county.

The Sun joins their many friends in wishing them many blessings during their wedded life.

## CAUGHT ON CHARGE OF COUNTERFEITING

DEPUTY WYNNE BRINGS IN TWO MORE OF GANG.

Men Are Very Reticent and Refuse to Talk Concerning Their Arrest and the Charge.

Deputy Sheriff Wynne arrived in the city yesterday with J. J. and Simon Knighton, two brothers, charged with counterfeiting, the operations being made near Newberry.

The men are said to be members of the crowd with whom Hodge was associated, and had been at work in the manufacture of spurious money for some time when the first arrest was made. Hodge, the first party arrested, is now out on bond, but the cases of all three will come up at the next session of the United States court here.

Deputy Wynne is confident that he will secure more of the crowd who are supposed to have operated together, and is now quietly at work on evidence which will warrant their arrest.

Plenty of the money has been found about them, but the officer has so far failed to find their molds, which are believed to be buried somewhere near Newberry or hid away in an out-of-the-way place.

The men were seen at the jail but refused to talk concerning their arrest or anything connected with the case, as they wanted to wait until they could confer with some attorney.

## ARCHER NEWS.

Young Ladies Entertain With Unique St. Valentine Party.

ARCHER, Feb. 17.—Mrs. Fred Cumberly and children of Cedar Key are visiting Mrs. James Hancock.

Mrs. Horace Ross and little son are spending this week with Mrs. Robert Heagy.

Miss Louise DePass spent several days this week with the Powell children.

Miss Essie Smith, who has been spending several weeks with her parents in Micanopy, has returned home.

Miss Leila Banknight left today for a few days' visit to her sister, Mrs. Joel Tucker, of Jacksonville.

Robert Heagy has accepted a position with the Dutton Phosphate Company at Dutton.

Dr. W. C. Andruss of Williston is visiting Rev. and Mrs. Newman.

Mrs. W. H. Powell and son, William, spent Tuesday with friends in Gainesville.

Dr. W. C. Andruss entertained a party of friends at dinner at the Magnolia on Friday, the occasion being his seventy-fifth birthday. Among the party were Mr. and Mrs. Thomas Pearson, Mr. and Mrs. W. A. Wood, Rev. and Mrs. H. H. Newman, Mrs. Marion Smith and Miss Elsie Smith.

Andrew Smith of Micanopy, who has been clerking for Fleming &amp; Sons, has resigned his position and accepted one as clerk for Mr. Crawford at Micanopy.

Mr. Duling, wife and son, of Indiana, who have been here for some time, left yesterday for a visit on the East Coast before returning to their home.

The young ladies of Archer gave a Valentine party at the hall Friday evening, twenty couples being present. The hall was beautifully decorated with ferns, evergreens, hearts and other things suggestive of the evening, the color scheme being green and pink. Progressive peanuts and other games were enjoyed until the most amusing feature of the evening was announced, which was the shooting of the hearts. Each young lady had prepared a heart; all were strung on ribbon in a row, and each young man took his turn shooting at one with a small bow and arrow, in that way selecting his partner for supper. After the games were finished all were invited out to a table beautifully decorated with pink candles, hearts and flowers, where the daintiest of refreshments were served, consisting of fruit salad on lettuce leaves, bread and butter sandwiches, ice cream and cakes, the color scheme being carried out in the pink ice cream served in pink heart-shaped cups. At a late hour the guests left, wishing dear old St. Valentine's day would come often more than once a year.

Mr. and Mrs. James Skinner are visiting in St. Petersburg this week. Mr. and Mrs. Clarence McDonald
